

As supporters of the mission of The Center for Women's & Gender Studies, we are fully aware of the sensitive and often controversial nature of the topics with which we engage on a daily basis. The possibility that an armed student (licensed or not) might be present in the classroom or in our Center will necessarily limit the topics we discuss and our willingness to engage students in controversial discussions.

We try to create a 'safe space' for students to speak about sensitive issues in their classrooms, in our offices and when they engage with our staff and with one another. Guns can never, even in the hands of licensed carriers, promote or preserve that space. They can only carry threats of violence and intimidation.
