Be it Resolved:

1: Classrooms should be gun-exclusion zones.

2: When any part of a building is a gun-exclusion zone, the whole building should be a gun-exclusion zone.

3: University personnel who have declared their office a gun-exclusion zone should be able to post appropriate signage if the “whole building” policy proposed in Resolution 2 is not adopted. They should also not be required to meet an armed person at another location.

4: The University of Texas Police should receive extensive training to deal with the implementation of SB11.

5: The University should mount an initiative to study gun violence and non-lethal means of enhancing personal safety, both on-campus and off-campus.

Hillary Hart, Secretary
General Faculty and Faculty Council
