Change being proposed and rationale:  
1. Remove the “3” hours after OM 334M.  
Rationale: Those hours are incorrectly placed; students choose one of OM 335 or OM 335M or OM 334M, a three hour requirement (not six), with three courses to choose from to satisfy that requirement.

2. In the catalog language, remove specification of course numbers accepted for the nine hours of operations management electives; any upper-division operations management is accepted.  
Rationale: Not specifying a long list is easier for students to understand the requirement. It also reduces the risk of missing adding new courses that the department would want to be included, study abroad courses, etc. The original intent was any upper-division operations management; this is making that intent explicit and simpler in the catalog language.
