

Tentative Committee Schedule for Standing Committees

After discussions with Dr. Bartholomew and Keryn, I am proposing that we see if some standing committees can meet less frequently in the coming year. As you will see in the grid below, I'm proposing that the GSC and Budget Council meet only twice a semester (and as needed), rather than every month. My plan is to hold a mid-semester faculty and staff meeting (for everyone) where I will share various announcements and updates on things affecting the department, rather than using GSC and BC for those kinds of announcements.

I'm asking each area coordinator and committee chair to hold their first meeting in September and then decide whether your group needs to continue meeting on a monthly basis or on a revised schedule—which will be submitted to me and our new Committee Review Committee. Please remember the need to consider the importance of timely catalog and schedule requests to Jenny Ann and Phillip in your discussions. And, in this same September meeting, I am asking every committee—no matter how small—to begin work on an Operating Code that explains the composition and duties of that committee.

This will be revised in September after committees meet and decide on their schedules.
