ADVANCED PRACTICUM AGREEMENT

School Psychology Doctoral Training Program Counseling Psychology Doctoral Training Program Department of Educational Psychology The University of Texas at Austin

inding agreement that documents an initial understanding between
, a student in the
Counseling Psychology Doctoral Training Program at The University of Texas
, site supervisor at
(name of training site).

The purpose of this agreement is three-fold:

- 1. to serve as documentation for the program to describe the nature of training and supervision this student is receiving,
- 2. for documentation for internship and licensure applications, and
- 3. to establish an initial consensus between the student and the practicum agency about mutual responsibilities.

It is the intent of this document to encourage dialogue about both the training and the supervision to be provided throughout the practicum. It is hoped that future conversations will build on this dialogue in order to deepen the training experience for both trainee and supervisor.

Questions to guide the trainee:

- What are you looking for in a supervisory experience?
- What have your previous experiences with supervision been? What has worked for you, and what has not?
- What areas of growth or knowledge do you hope to achieve this semester?
- How comfortable are you with self-disclosure (both of yourself and your supervisor)?
- What limitations should your supervisor be aware of with regards to your time (class time, research time, program requirements)?

Questions to guide the supervisor:

- What are you looking for in a trainee?
- What is your theoretical orientation as a supervisor? As a psychologist/mental health professional?
- How do you like to structure the supervision time?
- What is your "door policy" (i.e., your availability outside of the supervision hour)?

- What is your style of providing feedback? How often? How direct? Are you comfortable with the trainee asking for feedback?
- What is your comfort with receiving feedback from the trainee? How often or when is this appropriate?
- To what extent do you incorporate multicultural competencies in your supervisory support?
- How comfortable are you with self-disclosure (both of yourself and your trainee)?

Student Training Goals: Students should identify 1-3 training goals 1. 2. 3.	
Supervisor Expectations: Please indicate any specific expectations for supervising:	vision that would be important to document in
Once the supervisor and trainee have had some time that may arise, please jointly complete the following	1
Start date of practicum: End da	ate of practicum:
Expectations regarding student breaks (e.g. breaks absence/student responsibilities for coverage, etc):	between semesters; indicate site policy for
"Door policy" or other staff member the student ca supervision:	
Number of hours per week the trainee is expected t and off-site work time:	o devote to this practicum, including on-site
Number of hours per week the trainee is required to	be on site (program limit is 12 hours):
Number and type of supervision hours (minimum is hours per week for Counseling Psychology): Individual supervisions: hours/week Group supervision: hours/week	
The student will have direct client contact as:	t hours per week, approximately distributed

Important Note about Direct Observation of Student:

The current APA Standards of Accreditation require that evaluations of students by their supervisor are based in part by direct observation (defined as live observation, audio review, or video review) of the student doing clinical work. The minimum is one instance of direct observation per semester, however program faculty recommend multiple observations in order to provide feedback on relative growth. Please indicate your plan for direct observation:

Live observation	Video recording	Audio recor	rding
