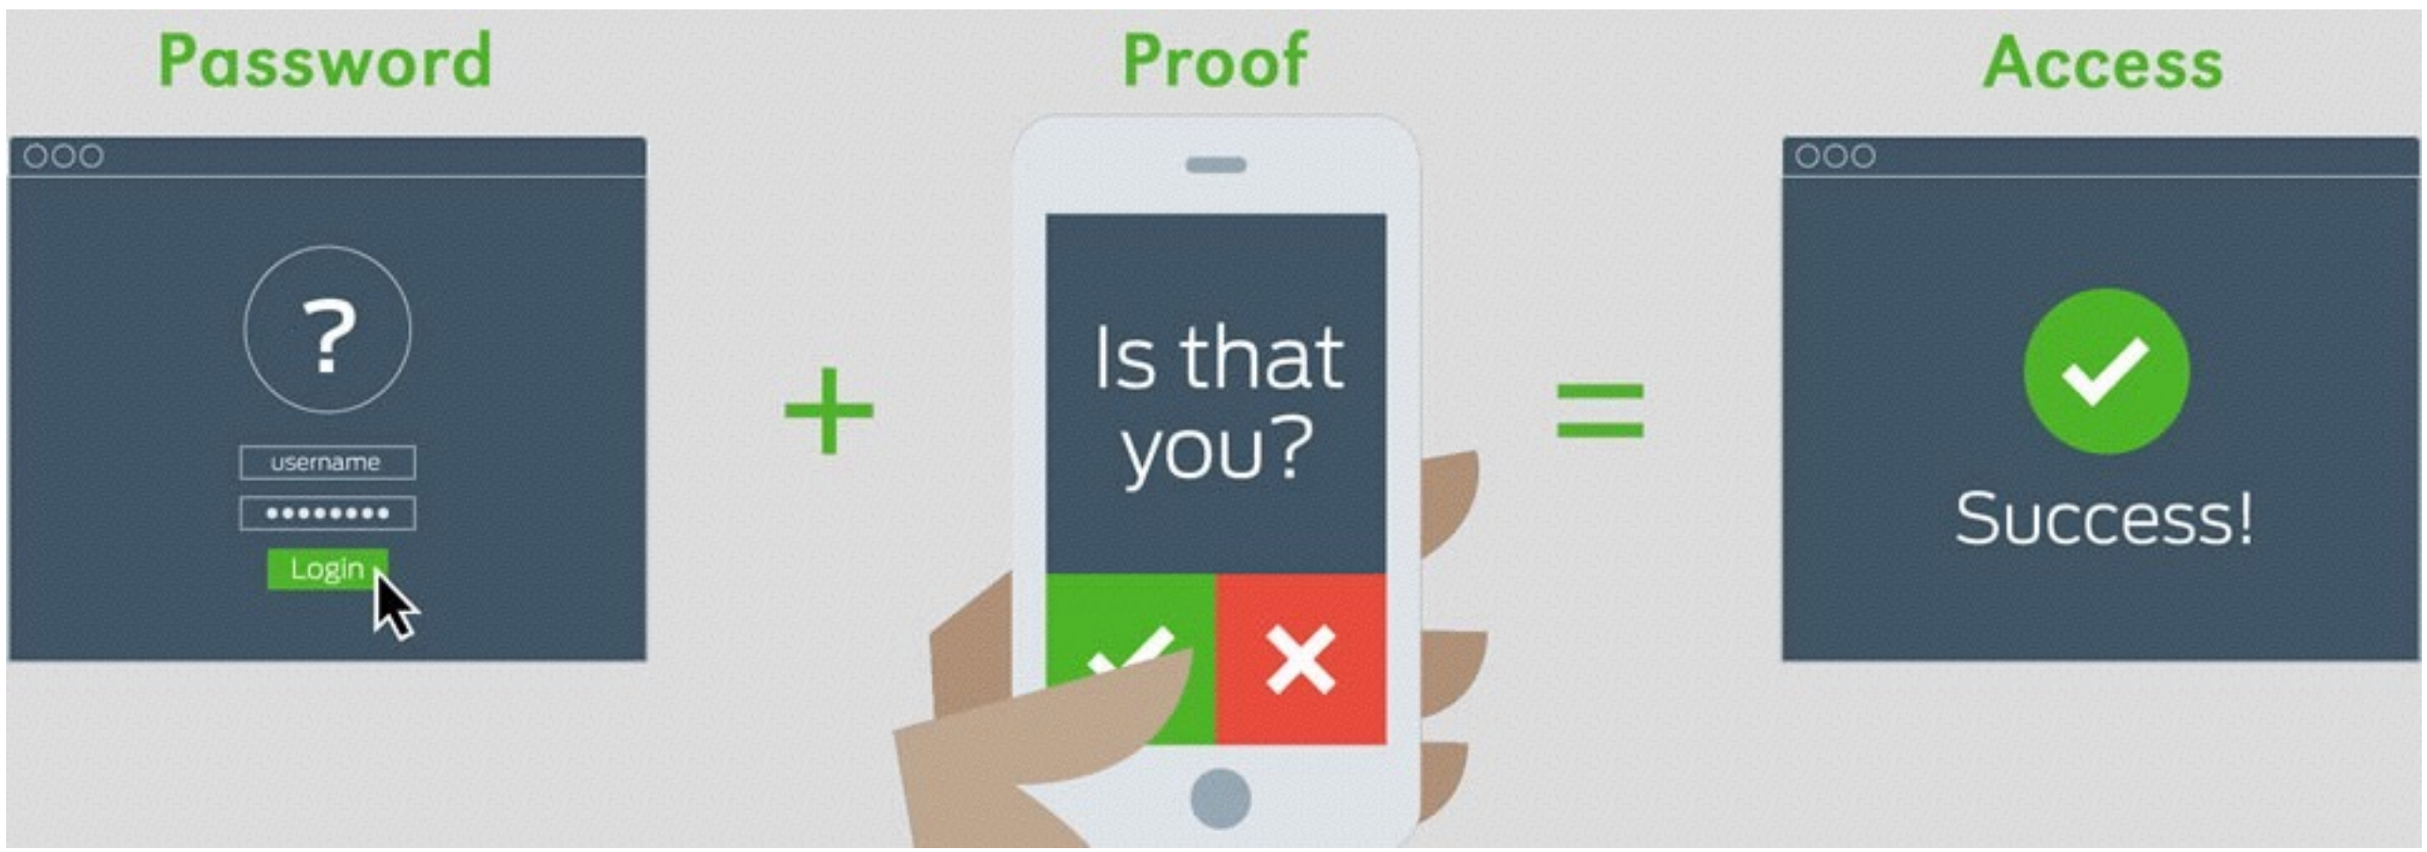
Introducing Two-Factor (2FA) Authentication



That simple, right? This is a guide made by your Desktop Support, to help you through this process.

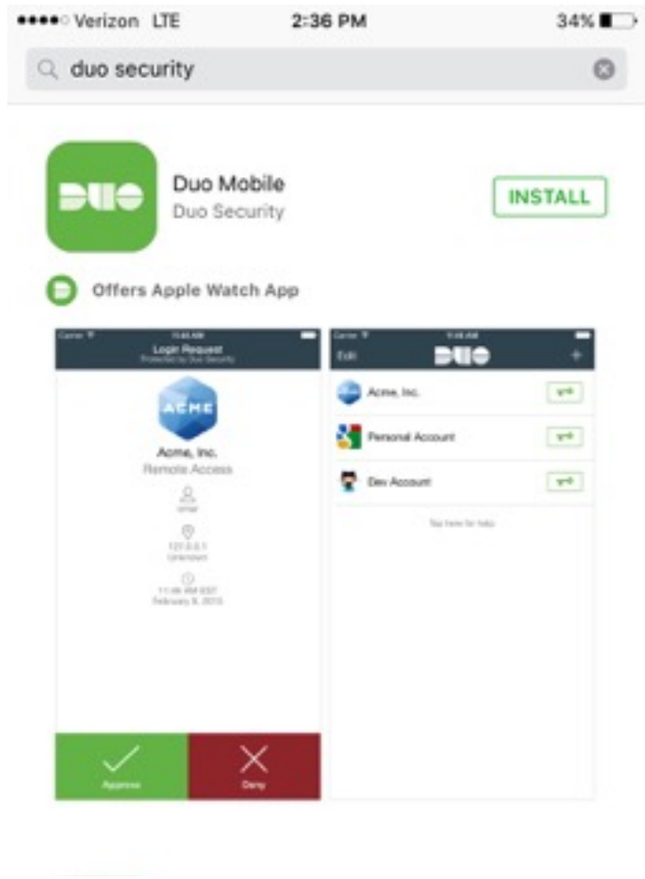
1 **Click this link to navigate to the Registration Page:**

https://utdirect.utexas.edu/apps/duo/register/

2 **Choose what type of device you would like to use. *The recommended device is your smart phone.**

+Add phone number & check the box to make sure it was typed correctly.

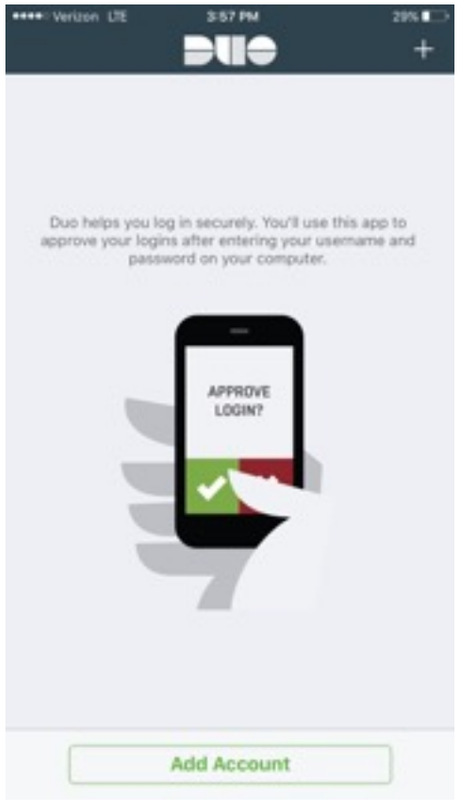
3 **Download the free app: “Duo Mobile” in your App store.**



I have app installed..

*Once you are in the Duo App, it will ask to you give it permission for push notifications and camera access- Say Yes!

4

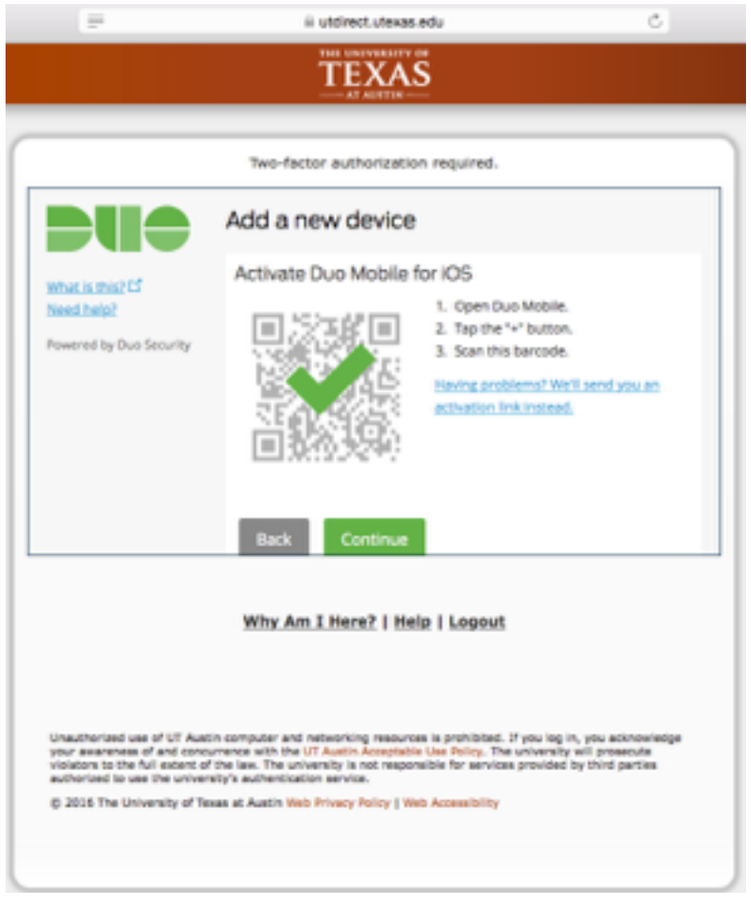


5 **Tap Approve on your phone**

Success!

6 **Take a picture of the QR code with your phone.**

7 **Your phone will prompt you now. After accepting your computer screen should look like this..**



Verify Ownership- Text is easier,
Once you receive the Verification Code Text, enter the given code & click Verify!

If you choose to Automatically Send me a: Duo Push, this will make it much easier for your to authenticate in the future.

Then click Continue to Login
