Postdoctoral fellowship in Outpatient Psychological Treatment and Assessment

The Division of Pediatric Psychology and Neuropsychology is seeking to fill 1 Fellowship for the 2017-2018 year. The fellow in this position will be expected to provide psychotherapy services and psychological assessments to children and adolescents (2-18 years) with a wide range of medical and psychological conditions. Post-docs are involved in all aspects of testing, including intakes, administration, report-writing, and feedback sessions. As part of the fellowship, post-docs will also take a supervisory role for externs and interns that are completing their clinical rotations. The fellow in this position is also expected to carry a therapy caseload and conduct initial consultations with children and adolescents with a variety of psychological and medical concerns. Primary presenting concerns include internalizing concerns, emotional disorders, anxiety, adjustment issues related to life stressors and trauma, behavioral difficulties, and autism spectrum disorders. The fellow may also see children with diabetes, developmental and intellectual disabilities, genetic syndromes, and other pediatric disabilities.

This position is one year in duration, with supervision and training provided by a licensed psychologist on faculty. Position is open to graduates from APA approved doctoral programs that have completed their internship training. Applicants who have completed their doctoral degree prior to the start of fellowship are preferred. The fellow will receive supervision from psychology faculty as well as didactics. Applicants should have a background in behavioral, as well as cognitive-behavioral assessment/treatment, and experience in clinical child and/or pediatric psychology. **Start date is August or September 2018.** Excellent benefits, competitive salary, and free parking are available.

To apply send a cover letter, curriculum vitae, and 3 letters of recommendation to: Elizabeth Getzoff Testa, Ph.D., Director of Pediatric Psychology Postdoctoral Program, by email to egetzoff@mwph.org. Applications will be reviewed as they are received and accepted until the positions are filled.
