Child/Adolescent post-doctoral resident/licensed psychologist

Sparrow House Counseling (SHC) is a large private practice in Dallas, Texas, which serves individuals of all ages, marriages, and families. The practice is comprised of psychologists and licensed professional counselors, who treat a variety of clinical disorders and relationship issues. SHC is seeking a post-doctoral resident or licensed psychologist for their child and adolescent program.

**Opportunities:**

- Cognitive-behavioral therapy work primarily with children and adolescents with diagnoses such as (but not limited to) anxiety, depression, OCD, and ADHD
- Assessment for a variety of disorders (learning disorders, attention disorders, autism, etc)
- Developing staff refresher training on evidence-based practices with the child/adolescent population
- Opportunities to speak in the Dallas community regarding mental health disorders
- Assist with program development of new services (parenting groups, social skills groups, mindfulness, etc)
- Work collaboratively with other professionals in the community (psychiatrists, pediatricians, etc)
- Collaborate with local school districts and private schools to assist students and families

**Qualifications:**

- APA accredited school or clinical psychology program preferred
- APA or APPIC accredited pre-doctoral internship with emphasis in school or child clinical work preferred
- Interest in collaborating with other professionals in a private practice setting
