**DVD-STUDIO-PRO How to make a Button Style for a Custom Menu**
1. Drag the cursor around the area of the menu to create a button

2. Click on the Button Property Manger and set a target
3. Also choose a button shape so when selecting the button a highlight will illuminate when button is to be selected.
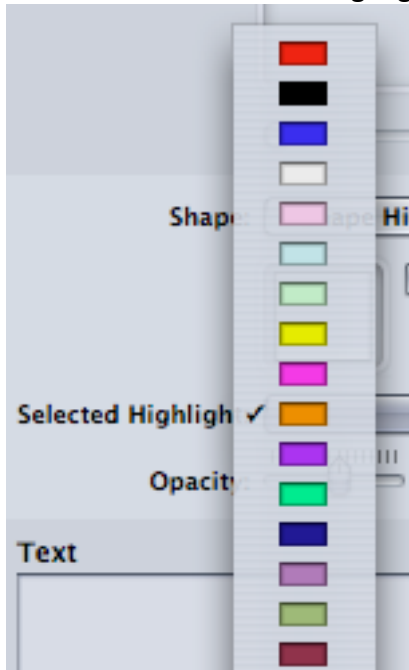

4. Click on "Shape">Apple Shapes>and choose from the large selection of shapes.
5. In this example L Shape Highlight is chosen.

Frame Gold Small
✓ L Shape Highlight
Line 393x5 Highlight
Line Highlight 64x4
Line Horizontal Gray
Line Horizontal White
Line Vertical White
