12. OTHER CERTIFICATE REQUIREMENTS: No other requirements.

13. GIVE A DETAILED RATIONALE FOR CHANGE(S):
Given the recent opening of the Dell Medical School at The University of Texas at Austin, the availability of a Medical Spanish Certificate is timely and important. We anticipate demand for this certificate based on the results of a series of student surveys and workshops held during academic years 2015-16 and 2016-17, which indicated high student interest in the development of practical skill sets on an advanced level in the Spanish language, including Medical Spanish. A number of students who complete their foreign language requirement in Spanish wish to continue studying the language on an advanced level, focused on specific professional contexts, without undertaking a major in our department. We believe this certificate program will address these student needs as well as attract students to our upper-division program who major in other areas and might not traditionally study with us on an advanced level.
