Minor and Certificate Programs

Establish a policy for how many transcript-recognized minors and certificates a student may attach to a single degree audit profile.

Reason: Currently, university legislation does not limit the number of transcript-recognized minors/transcript-recognized certificates a student may seek. The interactive degree audit software has a built-in limit of five separate credentials that may be attached to a single profile. The college is instituting a policy similar to its simultaneous major policy, requiring students to meet with their advisers to discuss the impact of adding more than one credential to their degree and how it would impact their expected date of graduation.

PROPOSED NEW CATALOG TEXT:  
MINOR AND CERTIFICATE PROGRAMS  

In the College of Natural Sciences, only one transcript-recognized minor or transcript-recognized certificate may be declared per major.  

A student who wishes to pursue more than one transcript-recognized minor or transcript-recognized certificate per major must consult with his or her academic advisor to get permission from the College. When considering whether to grant an exception and allow pursuit of another transcript-recognized credential, the academic advisor will take into account the student's long-term educational/professional goals and the student’s ability to graduate within four years of entering the university.  

Students admitted to transcript-recognized certificate and transcript-recognized minor programs must contact their academic advisors to have approved programs added to their degree audit profiles. This allows progress toward the programs to be tracked and ensures that certificates and minors are added to official transcripts upon graduation, if all requirements are met.
