March 9, 2018
Provost Maurie McInnis
The University of Texas at Austin
MAI 201
Campus Mail Code: G1000
Dear Provost McInnis,
Enclosed for your consideration and action are proposed changes to the College of Natural Sciences Chapter of the Undergraduate Catalog, 2018-2020. The proposals are classified as being of exclusive interest to only one college or school and were approved by the Faculty Council on a no-protest basis on March 8, 2018. The authority to grant final approval of this legislation resides with your office on behalf of the President.

- Proposed changes to the BA Plan I, Astronomy Degree Program (D 16022-16025)
- Proposed changes to the Bachelor of Science and Arts (D 16026-16035)

Please let me know if you have questions or if I can provide other information concerning this item.

Sincerely,
Al aw w. Oriehuen
Alan W. Friedman, Secretary
General Faculty and Faculty Council
The University of Texas at Austin
Arthur J. Thaman and Wilhelmina Doré Thaman Professor of English and Comparative Literature

## DOCUMENTS OF THE GENERAL FACULTY

## PROPOSED CHANGES TO THE BA PLAN I, ASTRONOMY MAJOR IN THE COLLEGE OF NATURAL SCIENCES SECTION IN THE UNDERGRADUATE CATALOG 2018-2020

Dean Linda A. Hicke in the College of Natural Sciences has filed with the Secretary of the Faculty Council the following proposal to change the Bachelor of Arts, Plan I, Astronomy major in the College of Natural Sciences chapter in the Undergraduate Catalog, 2018-2020. On February 10, 2017, the Astronomy Executive Undergraduate Studies Committee approved the proposal. On September 6, 2017, the Course and Curriculum Committee and Associate Dean David Vanden Bout, on behalf of Dean Hicke, approved it. The Secretary has classified this proposal as legislation of exclusive interest to one college or school.

The Committee on Undergraduate Degree Program Review recommended approval of the proposal on February 2,2018 , and forwarded it to the Office of the General Faculty. The Faculty Council has the authority to approve this legislation on behalf of the General Faculty. The authority to grant final approval on this legislation resides with the Provost on behalf of the President.

If no objection is filed with the Office of the General Faculty by the date specified below, the legislation will be held to have been approved by the Faculty Council. If an objection is filed within the prescribed period, the legislation will be presented to the Faculty Council at its next meeting. The objection, with reasons, must be signed by a member of the Faculty Council.

To be counted, a protest must be received in the Office of the General Faculty by March 8, 2018.
Alew w. Orielwen
Alan W. Friedman, Secretary of the General Faculty and Faculty Council
The University of Texas at Austin
Arthur J. Thaman and Wilhelmina Doré Thaman Professor of English and Comparative Literature

# PROPOSED CHANGES TO THE BA PLAN I, ASTRONOMY MAJOR, IN THE COLLEGE OF NATURAL SCIENCES SECTION IN THE UNDERGRADUATE CATALOG 2018-2020 

Type of Change $\quad$ Academic ChangeDegree Program Change (THECB form required)

Proposed classification: $\boxtimes$ Exclusive $\quad \square$ General $\quad \square$ Major

1. IF THE ANSWER TO ANY OF THE FOLLOWING QUESTIONS IS YES, THE COLLEGE MUST CONSULT LINDA DICKENS, DIRECTOR OF ACCREDITATION AND ASSESSMENT, TO DETERMINE IF SACSCOC APPROVAL IS REQUIRED.

- Is this a new degree program?
- Is this program being deleted?
- Does the program offer courses that will be taught off campus?
- Will courses in this program be delivered electronically?

| Yes $\square$ | No $\boxtimes$ |
| :---: | :---: |
| Yes $\square$ | No $\boxtimes$ |
| Yes $\square$ | No $\boxtimes$ |
| Yes $\square$ | No $\boxtimes$ |

2. EXPLAIN CHANGE TO DEGREE PROGRAM AND GIVE A DETAILED RATIONALE FOR EACH INDIVIDUAL CHANGE:

Remove AST 364 and add AST 364P, Planetary Systems, to the list of approved courses from which students select 2 classes.
Reason: The Registrar required the department to retire AST 364, Solar System Astronomy, and replace it with AST 364P, Planetary Systems, when the department attempted to update the title of AST 364. No change in content.
3. THIS PROPOSAL INVOLVES (Please check all that apply)
$\square$ Courses in other colleges

Course in the core curriculumChange in admission requirements (external or internal)Courses in proposer's college that are frequently taken by students in other colleges
$\square$ Change in course sequencing for an existing programRequirements not explicit in the catalog language (e.g., lists of acceptable courses maintained by department office)

## 4. SCOPE OF PROPOSED CHANGE

a. Does this proposal impact other colleges/schools? Yes $\square$ No $\boxtimes$ If yes, then how would you do so?
b. Do you anticipate a net change in the number of students in your college? $\quad$ Yes $\square$ No $\boxtimes$ If yes, how many more (or fewer) students do you expect?
c. Do you anticipate a net increase (or decrease) in the number of students from outside of your college taking classes in your college?

Yes $\square$ No $\boxtimes$ If yes, please indicate the number of students and/or class seats involved.
d. Do you anticipate a net increase (or decrease) in the number of students from your college taking courses in other colleges? $\quad$ Yes $\square$ No $\boxtimes$
If yes, please indicate the number of students and/or class seats involved.
If $4 \mathrm{a}, \mathrm{b}, \mathrm{c}$, or d was answered with yes, please answer the following questions. If the proposal has potential budgetary impacts for another college/school, such as requiring new sections or a nonnegligible increase in the number of seats offered, at least one contact must be at the college-level.

How many students do you expect to be impacted?
Impacted schools must be contacted and their response(s) included:
Person communicated with:
Date of communication:
Response:
e. Does this proposal involve changes to the core curriculum or other basic education requirements (42hour core, signature courses, flags)? If yes, explain:
If yes, undergraduate studies must be informed of the proposed changes and their response included:

Person communicated with:
Date of communication:
Response:
f. Will this proposal change the number of hours required for degree completion?

Note: THECB Semester Credit Hour Change Form required, download from URL:
http://www.thecb.state.tx.us/reports/DocFetch.cfm?DocID=2419\&format=doc If yes, explain:

## 5. COLLEGE/SCHOOL APPROVAL PROCESS

Department approval date: February 10, 2017
Astronomy Executive Undergraduate Studies Committee
College approval date:
Dean approval date:
September 6, 2017
Course and Curriculum Committee
September 6, 2017 David Vanden Bout, Associate Dean for Undergraduate Education

## DOCUMENTS OF THE GENERAL FACULTY

## PROPOSED CHANGES TO THE BACHELOR OF SCIENCE AND ARTS IN THE COLLEGE OF NATURAL SCIENCES CHAPTER IN THE UNDERGRADUATE CATALOG 2018-2020

Dean Linda A. Hicke in the College of Natural Sciences has filed with the Secretary of the Faculty Council the following proposal to change the Bachelor of Science and Arts degree program in the College of Natural Sciences chapter in the Undergraduate Catalog, 2018-2020. The Department of Biochemistry approved the proposal on March 31, 2017; it was approved by the Dean's Scholars Steering Committee on September 27, 2017; and by the Course and Curriculum Committee and Associate Dean David Vanden Bout, on behalf of Dean Hicke, on September 20, 2017. The Secretary has classified this proposal as legislation of exclusive interest to only one college or school.

The Committee on Undergraduate Degree Program Review recommended approval of the proposal on February 2, 2018, and forwarded it to the Office of the General Faculty. The Faculty Council has the authority to approve this legislation on behalf of the General Faculty. The authority to grant final approval on this legislation resides with the Provost on behalf of the President.

If no objection is filed with the Office of the General Faculty by the date specified below, the legislation will be held to have been approved by the Faculty Council. If an objection is filed within the prescribed period, the legislation will be presented to the Faculty Council at its next meeting. The objection, with reasons, must be signed by a member of the Faculty Council.

To be counted, a protest must be received in the Office of the General Faculty by March 8, 2018.

Alan W. Friedman, Secretary of the General Faculty and Faculty Council
The University of Texas at Austin
Arthur J. Thaman and Wilhelmina Doré Thaman Professor of English and Comparative Literature

Distributed through the Faculty Council Wiki site https://wikis.utexas.edu/display/facultycouncil/Wiki+Home on March 1, 2018.

# PROPOSED CHANGES TO THE BACHELOR OF SCIENCE AND ARTS IN THE COLLEGE OF NATURAL SCIENCES CHAPTER IN THE UNDERGRADUATE CATALOG 2018-2020 

$\begin{array}{ll}\text { Type of Change } & \boxtimes \text { Academic Change } \\ & \square \text { Degree Program Change (THECB form required) }\end{array}$

Proposed classification $\quad$ Exclusive $\quad \square$ General $\quad \square$ Major

## 1. IF THE ANSWER TO ANY OF THE FOLLOWING QUESTIONS IS YES, THE COLLEGE MUST CONSULT LINDA DICKENS, DIRECTOR OF ACCREDITATION AND ASSESSMENT, TO DETERMINE IF SACSCOC APPROVAL IS REQUIRED.

- Is this a new degree program?

| Yes $\square$ | No $\boxtimes$ |
| :--- | :--- |
| Yes $\square$ | No $\boxtimes$ |
| Yes $\square$ | No $\boxtimes$ |
| Yes $\square$ | No $\boxtimes$ |

## 2. EXPLAIN CHANGE TO DEGREE PROGRAM AND GIVE A DETAILED RATIONALE FOR EACH INDIVIDUAL CHANGE:

## Astronomy Major

1. Req 1b: Add M 427J.

Reason: M 427J is Differential Equations with Linear Algebra. This course was added to the BA, with a major in Astronomy, and the BS in Astronomy degree options for the 2016-18 catalog. The department forgot to add it to the BSA, with a major in Astronomy.

## Biochemistry Major

1. Add M 408R as an alternative to M 408C or 408 N and 408 S

Reason: M 408R was developed by the Department of Mathematics for majors in which students needed minimal
exposure to calculus.
2. Add BIO 344

Reason: The BS in Biochemistry eliminated a concentration in molecular biology when it was restructured in the
2016-18 catalog. Rather than create a new biochemistry course to address this, BIO 344 is added to the BS in Biochemistry fulfill this gap in knowledge. BIO 344 is added to the BSA to make the BS and BSA degrees in biochemistry more similar.

## Biology Major

1. Addition of BIO 226L as alternative to BIO 206L or 208L.

Reason: All other Biology degrees offer BIO 226L as an option instead of BIO 206L or 208L.
2. Remove BIO 323L and BIO 128L from list of approved labs.

Reason: Department of Molecular Biosciences is unsure when course will be offered again. Students who might
have taken BIO 323L or 128 L will be absorbed into the other lab course options.

Human Development and Family Sciences Major

1. Drop 9 hours of upper-division HDFS courses. Add HDF 340 and 6 hours of a required research and/or field practicum requirement (chosen from HDF $352,652 \mathrm{~F}, 352 \mathrm{~L}, 652 \mathrm{P}$, and 355 R ).

## Reason:

a. The College of Natural Sciences $21^{\text {st }}$ Century Undergraduate Education Working Group has recommended that a
strong component experiential learning be included in all CNS undergraduate degree programs. The BS in Human
Development and Family Sciences (HDFS) requires 6 credits ( 20 hours) of practicum experience consisting of either
research experience, or field practicums that involve working directly with children and families in educational or
community settings, or a combination of both.
The BSA HDFS major does not require any practicum experience, and although BSA students could choose this option from among their required 18 hours of upper-division coursework, most do not and therefore have minimal
exposure to experiential learning.
b. Many BSA students plan to go into the health professions or other types of graduate or professional schools.

When looking into applying for these programs during their senior year, students discover too late that most of these
schools require students to have research experience and/or experience in applied settings. They then ask to volunteer in our practicum settings or research labs, but are often unable to do this because the faculty have not planned for their involvement and it is too late to accommodate them. Moreover, they do not get the same degree of
supervision, oversight, and accountability as volunteers that they would if they had registered for the research or field practicum.
c. HDF 340 (Ethical, Philosophical, and Professional Development Issues) was added because it is prerequisite for
Human Development and Family Sciences 352, 652F, 352L, 652P. HDF 340 is also required in the BS HDFS degree. In addition, it carries the Ethics and Leadership flag, which is now required for all students in the College of
Natural Sciences.
2. Add M 408R as a choice for one semester of calculus.

Reason: M 408R was developed by the Department of Mathematics for majors in which students needed minimal
exposure to calculus.
3. Add in a statement excluding PSY 304 (Introduction to Child Psychology), 333D (Introduction to Developmental
Psychology), and 339 (Behavior Problems of Children) from counting as elective hours on the BSA when a student
seeks the Human Development and Family Sciences major.
Reason: PSY 304 and PSY 333D include concepts that are also contained in HDF 313 (Child Development). PSY
339 and HDF 342 (Development of Psychopathology from Infancy through Adolescence) are in a duplicate
relationship. HDF majors interested in psychopathology manifesting during childhood and adolescence are better
served taking HDF 342. This statement is included in the BS in Human Development and Family Sciences. It was
not included in error when the BSA degree was created in the 2014-16 catalog.

Human Ecology Major

1. Add M 408R as a choice for one semester of calculus.

Reason: M 408R was developed by the Department of Mathematics for majors in which students needed minimal
exposure to calculus.
2. Add "one of the following" to the requirement of BIO 311D, CH 302, or 302H.

Reason: Students in the Human Ecology major take the first majors-level course in biology and chemistry. They
are then asked to take the second majors-level course in biology or chemistry. The current wording is confusing.
3. Add PBH 317 as a requirement to the 27 hours from the School of Human Ecology.

Reason: The public health field of study moved to the School of Human Ecology. PBH 317, Introduction to Public
Health, would be a beneficial course for students who are seeking this generalized major.
4. Clarify that the 15 hours of upper-division coursework can be a combination of coursework from the HDFS, HE,
NTR, PBH, and TXA fields of study.
Reason: As this is a generalized major, the School of Human Ecology is not prescriptive as to which fields of study
a student chooses for coursework to fulfill the requirement. Students may choose a single field of study or take coursework across all of the School of Human Ecology fields of study.

## Neuroscience Major

1. Add NEU 371M, Comparative Neuroscience, to list of acceptable courses.

Reason: To make the list of approved neuroscience consistent with the BS in Neuroscience options.

## Nutrition Major

1. Add NTR 315 to both sequences in 2 a .
2. Add completion of NTR 307 and 107L, or 218 and 118L, for all BSA NTR majors.

Reason: The addition of NTR 315 and the choice between $218+118 \mathrm{~L}$ or $307+107 \mathrm{~L}$ ensures that students will: a. acquire knowledge of the role of nutrition in the human lifecycle (NTR 315) and
b. receive a foundation of either nutrition assessment (NTR 218 or 118L) or food science (NTR 307 and 107L). The
course additions will enhance employment opportunities for graduates with facilities such as hospitals, schools, and
long-term care homes where these skills are desired.
3. Reduce overall additional hours of nutrition, from 16 to 12 hours. Reduce upper-division hours of nutrition within
additional hours from 12 to 9 hours.
Reason: The department is reducing the overall amount of nutrition by 4 hours in order to add 5 hours composed of
NTR 315; and NTR 307 and 107L, or NTR 218 and 118L.

## Physics major

1. Add M 427J as an alternative to M 427 K .

Reason: The Dept. of Mathematics now teaches M 427J, a course in differential equations that contains some linear
algebra concepts. M 427J was added to the BS in Physics for the 2016-18 catalog. This corrects the omission.

## 3. THIS PROPOSAL INVOLVES (Please check all that apply)

Courses in other colleges
Courses in proposer's college thatFlags are frequently taken by students in
other colleges
$\boxtimes$ Change in course sequencing for an existing programRequirements not explicit in the catalog language (e.g., lists of acceptable courses maintained by department office)

## 4. SCOPE OF PROPOSED CHANGE

a. Does this proposal impact other colleges/schools?

If yes, then how would you do so?
The Human Development and Family Sciences (HDFS) major will restrict PSY 304 (Intro to Child Psychology), 333D (Intro to Developmental Psychology), and 339 (Behavior Problems of Children) from counting toward the BSA, with a major in HDFS, due to overlap with existing HDFS coursework.
The Human Ecology Advising Center has already been telling their BSA HDFS students that these courses cannot count, not realizing there was not a restriction in the legislation analogous to the restriction on the BS in HDFS degree. The Department of Psychology might see a drop of a seat or two per year in each course as a result of publishing the restriction, not significant enough to impact the department or to seek permission.
b. Do you anticipate a net change in the number of students in your college? $\quad$ Yes $\square$ No $\boxtimes$ If yes, how many more (or fewer) students do you expect?
c. Do you anticipate a net increase (or decrease) in the number of students from outside of your college taking classes in your college?

Yes $\square$ No $\boxtimes$ If yes, please indicate the number of students and/or class seats involved.
d. Do you anticipate a net increase (or decrease) in the number of students from your college taking courses in other colleges?

Yes $\boxtimes$ No $\square$
If yes, please indicate the number of students and/or class seats involved. 1 seat per year in PSY 304, 333 D , and 339.

If $4 \mathrm{a}, \mathrm{b}, \mathrm{c}$, or d was answered with yes, please answer the following questions. If the proposal has potential budgetary impacts for another college/school, such as requiring new sections or a nonnegligible increase in the number of seats offered, at least one contact must be at the college-level.

How many students do you expect to be impacted?
Impacted schools must be contacted and their response(s) included:
Person communicated with:
Date of communication:
Response:
e. Does this proposal involve changes to the core curriculum or other basic education requirements (42hour core, signature courses, flags)? If yes, explain: No.
If yes, undergraduate studies must be informed of the proposed changes and their response included:

Person communicated with:
Date of communication:
Response:
f. Will this proposal change the number of hours required for degree completion? No.

Note: THECB Semester Credit Hour Change Form required, download from URL:
http://www.thecb.state.tx.us/reports/DocFetch.cfm?DocID=2419\&format=doc
If yes, explain:

## PROPOSED NEW CATALOG TEXT:

## Astronomy

Major

1. Mathematics:
a. Mathematics 408C and 408D
b. Mathematics 427 K or 427 J
2. Primary science:
a. Physics 301, 101L, 315, 115L, 316, and 116L
b. Two courses chosen from the following: Astronomy $352 \mathrm{~K}, 353$, and 358
c. Six additional upper-division semester hours in astronomy and physics
3. Secondary science:
[12] Twelve additional semester hours of majors-level coursework from one or more of the following areas. It is recommended that students select three of the 12 hours to also fulfill the Natural Science and Technology Part II core curriculum requirement
a. Biology
b. Chemistry
c. Computer Science
d. Geological Sciences
e. Mathematics
f. Statistics and Data Sciences

## Biochemistry

Major

1. Mathematics:
a. Mathematics $408 \mathrm{C}, 408 \mathrm{R}$, or 408 N and 408 S
b. Statistics and Data Sciences 328 M
2. Primary science:
a. Chemistry 301 or $301 \mathrm{H}, 302$ or 302 H , and 204
b. Chemistry 320 M , and 353 M or 455
c. Biochemistry 339 F and 369 L
d. Two courses chosen from the following: Biochemistry 339J, 339M, 339N, and 370
3. Secondary science:
a. Biology 311C, 311D and 325, or Biology 315H and 325H
b. Biology 344
[b-] c. One of the following physics sequences:
i. Physics $317 \mathrm{~K}, 117 \mathrm{M}, 317 \mathrm{~L}$, and 117 N (recommended)
ii. Physics 301, 101L, 316, and 116L
iii. Physics 303K, 103M, 303L, and 103N

## Biology

Major

1. Mathematics:
a. Mathematics 408C, 408R, or 408 N and 408 S. Students who intend to take additional calculus coursework should begin the sequence with 408 C or 408 N
b. Statistics and Data Sciences 328 M
2. Primary science:
a. Biology 206L, [өr] 208L, or 226L; 311C, 311D, and 325, or 315 H and 325 H
b. One of the following: Biology 320 or 344
c. Biology 370
d. Complete one course from each of the following:
3. Cellular, developmental, and molecular biology: Biochemistry 369 or $339 \mathrm{~F}, 339 \mathrm{M}$, 339J, 364F; Biology 320, 326R, 330, 335, 336, 339, 339M, 344, 347 or 360K, 349, 350M, 360M, 361
4. Genetics, genomics, and computational biology: Biochemistry 339N; Biology 321G, 325T, 327E, 327G, 354C, 336, 366R, 471; Statistics and Data Sciences 348
5. Physiology, neuroscience, and behavior: Biology 328, 438L, 359K, 359R, 361T, 365S, 367C, 374, Marine Science 355C
6. Ecology, evolution, and biodiversity: Biology 322, 324, 346, 351, 357, 364, 373, 375; Marine Science 320, 352C, 352D, 352E, 353, 354, 354C, 354E, 354Q, 356, 357
e. Complete one laboratory course from the following list: Biology 320L, 122L, 323L, 124L,

226L, [128L,] 129L, 325L, 230L, 331L, 328D, 340L, 446L, 448L, 349L, 353F, 453L, 354L, 455L, 456L, 160L, 361L, 463L, 165U, 369F, 369L, 371L, 373L, 174L, 478L
3. Secondary science:
a. Chemistry 301 or $301 \mathrm{H}, 302$ or 302 H , and 204
b. Complete one of the following:

1. Physics 302 K and 102 M (recommended)
2. Physics 317 K and 117 M
3. Physics 303 K and 103 M
4. Physics 301 and 101L

## Human Development and Family Sciences <br> Major

1. Mathematics:
a. Statistics and Data Sciences 302
b. Mathematics 408C [ [๒f] 408N, 408R, or Statistics and Data Sciences 332
2. Primary science:
a. Human Development and Family Sciences 304, 313, [and] 113L, [and] 315L, and 340
b. [18] Nine semester hours of upper-division human development and family sciences
c. c. Six hours chosen from Human Development and Family Sciences 352, 652F, 352L, 652P, and 355R. Registration for Human Development and Family Sciences 352, 652F, 352L, 652P, and 355 R is restricted to students whose practicum applications have been approved. Students who want to participate in an early childhood field experience/field practicum (HDF 352L or 652P) must also complete HDF 338 and 466 with grades of at least C-
Practicum applications are available in the School of Human Ecology advising office; application deadlines are May 1 for enrollment the following spring semester and December 1 for enrollment the following fall semester. If either May 1 or December 1 falls on a weekend or an official University holiday, the application is due the next business day.
3. Secondary science:
a. Chemistry 301 or 301 H
b. Biology 311C
c. One of the following courses: Biology 311D, Chemistry 302, or 302H

Psychology 304, 333D, and 339 may not count toward the Bachelor of Science and Arts, with a major in Human Development and Family Sciences.

## Human Ecology <br> Major

1. Mathematics:
a. Statistics and Data Sciences 302
b. Mathematics 408C, 408N, 408R, or Statistics and Data Sciences 332
2. Primary science: School of Human Ecology coursework, including:
a. Public Health 317 [ 27 semester hours frem the Sehool of Human Ecology, ineluding the following:]
b. One of the following: Human Development and Family Sciences 304, 304H, 313 and 113L, or 313 H and 113 L
c. Nutrition 306, 312, or 312 H
d. Textiles and Apparel 303 or 205 and 105L
e. [15] Fifteen semester hours of upper-division [eotrsework] chosen from Human Development and Family Sciences, Human Ecology, Nutrition, Public Health, and Textiles and Apparel
3. Secondary science:
a. Chemistry 301 or 301 H
b. Biology 311C
c. One of the following: Biology 311D, Chemistry 302, or 302H

## Mathematics

## Major

\{no change $\}$

## Neuroscience

Major

1. Mathematics:
a. Mathematics 408 C , or 408 N and 408 S
b. Statistics and Data Sciences 328 M
2. Primary science:
a. Biology 206L and one of the following sequences:

$$
\text { 1. } 311 \mathrm{C}, 311 \mathrm{D}, 325
$$

2. 315 H and 325 H
b. Neuroscience 330
c. Neuroscience 335
d. 12 additional semester hours of neuroscience, chosen from: Biology $359 \mathrm{~K}, 367 \mathrm{C}$, Neuroscience 337, 365D, 365L, 365T, 365W, 366C, 366D, 366E, 366L, 366N, 366P, 366S, $367 \mathrm{~F}, 367 \mathrm{~V}, 367 \mathrm{~W}, 466 \mathrm{G}$, [and] 466M, and 371 M . Biology 377 may count with prior approval of the faculty adviser
3. Secondary science:
a. Chemistry 301 or $301 \mathrm{H}, 302$ or 302 H , and 204
b. One of the following physics sequences:
i. Physics $317 \mathrm{~K}, 117 \mathrm{M}, 317 \mathrm{~L}, 117 \mathrm{~N}$
ii. Physics 303K, 103M, 303L, 103N
iii. Physics 301, 101L, 316, 116L

## Nutrition <br> Major

1. Mathematics:
a. Statistics and Data Sciences 302, 304, 306, 325H, or 328M
b. Mathematics 408C or 408 N or Statistics and Data Sciences 332
2. Primary science:
a. One of the following sequences:
i. Nutrition 312; and 112L, 315, 326; and 126L
ii. Nutrition 312 H and $312 \mathrm{R}, 315$
b. One of the following sequences:
i. Nutrition 307 and 107L
ii. Nutrition 218 and 118L
[b]. c. [16] Twelve additional semester hours of nutrition, including [12] nine semester hours of upperdivision coursework.
3. Secondary science:
a. Chemistry 301 or $301 \mathrm{H}, 302$ or 302 H , and 204
b. Chemistry 320 M
c. Biology 311C

## Physics

## Major

1. Mathematics:
a. Mathematics $408 \mathrm{C}, 408 \mathrm{D}, 427 \mathrm{~K}$ or 427J, and 427L
2. Primary science:
a. Physics 301, 101L, 315, 115L, 316, and 116L
b. Physics $336 \mathrm{~K}, 352 \mathrm{~K}, 355,369$, and 373
c. One course chosen from the following: Mathematics 340L; and Physics $329,333,345,353 \mathrm{~L}, 362 \mathrm{~K}, 362 \mathrm{~L}, 474,375 \mathrm{~S}, 375 \mathrm{R}$, or 375P
3. Secondary science:
a. Three semester hours of majors-level coursework chosen from: astronomy, biology, chemistry, computer science, and geological sciences. It is recommended that students select a course that will also fulfill the Natural Science and Technology Part II core curriculum requirement.
