Deans Sharon L. Woods and Sharon Mosher, in the Cockrell School of Engineering and the Jackson School of Engineering, respectively, have filed with the Secretary of the Faculty Council the following proposal to change the Geosystems Engineering and Hydrology degree program in their respective chapters in the *Undergraduate Catalog, 2018-2020*. On April 12, 2017, the Petroleum and Geosystems Engineering (PGE) faculty approved the proposal. It was approved by the Cockrell School of Engineering (CSE) Degrees and Courses Committee on May 24, 2017, and by Cockrell School of Engineering Dean Sharon L. Woods on September 18, 2017. The Secretary has classified this proposal as legislation of general interest to more than one college or school.

The Committee on Undergraduate Degree Program Review recommended approval of the proposal on March 7, 2018, and forwarded it to the Office of the General Faculty. The Faculty Council has the authority to approve this legislation on behalf of the General Faculty. The authority to grant final approval on this legislation resides with the Provost on behalf of the President.

Curriculum

Course requirements include courses within the Cockrell School of Engineering and other required courses. In addition, each student must complete the University's Core Curriculum. In some cases, a course that fulfills one of the following requirements may also be counted toward core curriculum or flag requirements; these courses are identified below.

In the process of fulfilling engineering degree requirements, students must also complete coursework to satisfy the following flag requirements: one independent inquiry flag, one course with a quantitative reasoning flag, one ethics and leadership flag, one global cultures flag, one cultural diversity in the US flag, and two writing flags. The independent inquiry flag, the quantitative reasoning flag, the ethics and leadership flag, and both writing flags are carried by courses specifically required for the degree; these courses are identified below. Courses that may be used to fulfill flag requirements are identified in the *Course Schedule*.

Courses used to fulfill technical and nontechnical elective requirements must be approved by the petroleum and geosystems engineering faculty and the geological sciences faculty before the student registers for them.
