Libraries

- **UT Libraries** - [http://www.lib.utexas.edu/](http://www.lib.utexas.edu/). Access electronic collections including ejournals, ebooks, and databases from the website. Visit the many libraries on the UT Austin campus to access print collections, or search the library catalog and click on the “pick it up” link to reserve a book.
- **The Dell Medical School Library** is an electronic library. Access all resources through the UT Libraries website or through the following medical library guide (a curated collection of highly used resources for medicine):
  - Dell Medical School Library Guide - [http://guides.lib.utexas.edu/medicine](http://guides.lib.utexas.edu/medicine) - organizes and provides links to the libraries’ electronic collections and useful information for medical students, residents, faculty and staff.

Accessing UT Library Electronic Resources

- Your UT EID and Password are the gateway to access all the electronic library resources.
- You might not be asked to login when you are on a UT computer or when using the UT WiFi, but you will definitely need to login when using the library resources while off campus.
- In order to access the full text of journal articles, use the FindIt@UT button found in most databases.
- **PubMed** - for the FindIt@UT button to appear, enter PubMed from either:
  - The UT Libraries databases page [https://guides.lib.utexas.edu/az.php](https://guides.lib.utexas.edu/az.php)
  - The Dell Medical School library guide: [https://guides.lib.utexas.edu/medicine](https://guides.lib.utexas.edu/medicine)
  - This direct link [http://guides.lib.utexas.edu/db/299](http://guides.lib.utexas.edu/db/299)
  - Or, by creating and customizing a My NCBI account in PubMed - instructions here: [http://guides.lib.utexas.edu/medicine/articles](http://guides.lib.utexas.edu/medicine/articles)
- To access a specific electronic journal, go to the **Journal Search tool** from the UT Libraries homepage.

On the search results page, follow the provided link(s) to the home page of the electronic journal where you can browse the table of contents or initiate a search within the journal.
For Faculty who have clinical duties at Seton Hospitals - Seton Library Resources and Staff:

Imelda’s Services

- Answers questions or gives guidance about library resources or tools. Email, call, or set up a face-to-face or virtual meeting with Imelda.
- Help with reference management tools, especially EndNote.
- Conducts literature searches
- Participates on systematic review teams: identifying search terms, developing a search strategy, conducting searches, and organizing/managing search results.
- Library Lessons in a Flash – Monthly instructional sessions offered. https://dellmed.utexas.edu/events
- Instruction you can request:
  - Introduction to the Library
  - PICO and how to translate into an Effective Search Strategy
  - Finding Information to support Evidence Based Medicine
  - EndNote
  - Using PubMed to its Maximum Capability
  - Research and Publication: Resources and Tools at UT
  - Or any other information literacy topic you, your staff, your students, or your residents need
- Collection Development – Have a suggestion for a library purchase? Identify a deficit in the library collection? Feel free to share resource recommendations with me.

UT Library Services

- Borrowing - https://legacy.lib.utexas.edu/services/borrower/
- Interlibrary Services (ILS) - https://legacy.lib.utexas.edu/services/ils/
  - To request a loan of a book not owned by UT Libraries
  - To request a scan of an article from a journal or a chapter in a book that is not available in the UT Libraries electronic collections
  - To request a scan of an article from a journal or a chapter in a book that is available only in print in the UT Libraries collections.
  - Typical turnaround time is three (3) business days for a scan, and 5+ days for a print book.
  - This is a free service.
- Scholarly Publishing information and services portal - https://legacy.lib.utexas.edu/services/scholarly-publishing
  - Texas ScholarWorks – open, online repository to the products of the University’s research and scholarship.
  - Research Data Services – supports good practice in the management and stewardship of research data across all steps of the process, from connecting researchers to appropriate tools, resources, and expertise to archiving and publication of data.
- Chat service at UT Libraries - https://www.lib.utexas.edu/research-help-support/ask-us - If Imelda is not available and you need a question answered right away.
