Canceling a Data Transfer from the Siemens Vida (SyngoMR XA)

To Cancel a Data Transfer via the Network or to Media

1) Open the *Jobs View* window, by clicking on the Briefcase or monitor icons in the upper right-hand / lower left corners of the Data Management window

Figure 1: Data Management Window

2) In the *Job View* tool (Figure 2), select the appropriate jobs tab: *Media* for transfers to an external hard disk or USB drive; *Network* for transfers to a PACS server - The tool will display currently active transfers.
3) Select the transfer you wish to halt.
4) Click *Cancel* to halt the transfer; its *Status* will then change to *Failed.*
5) Click *Delete* to remove the transfer from the queue.
