

# Clinical Innovation & Design

## Engineering + Medicine

Innovating real solutions in medicine with real hands-on clinical immersion experience

### Virtual Info Session

January 13, 2022 at 5:30 PM

<https://utexas.zoom.us/j/91224312014>

ENGINEERING BACKGROUND NOT REQUIRED | NOW RECRUITING CURRENT MS2s

### Why Clinical Innovation & Design?

- earn a distinction or combine the CID experience with a master's degree in biomedical engineering during the MS3 Growth Year
- address healthcare challenges through innovation, technology and design
- design and prototype medical devices
- work with an interdisciplinary team of mentors, including engineers, healthcare providers and entrepreneurs
- expand your medical career into the medical device design and entrepreneurship space
