Dear UHS worker,

Thank you so much for dedicating your time and energy to keep us students healthy and safe. I have gone to UHS to get tested for COVID and antibody tested and I appreciate your dedication and kindness. You have helped keep our school running this year! I really appreciate all that you do.

Sincerely,
Dear UHS staff,

Thank you so much for everything that you all have been doing to keep us safe in times of COVID-19. I know that it can be extremely difficult, whether you are working directly with patients or in a lab behind the scenes, know that your efforts have not gone unnoticed and that we appreciate you. Thank you for working so hard and keeping us safe.

Much Love,
To all the staff at UHS,

Thank you for all the work you do to keep things running smoothly and safely. Your Covid relief efforts are very much appreciated! This is a very tough time for all of us, so having a strong team that can ensure the health and safety of all the students and staff is very admirable. We are very lucky and fortunate to have you guys. Even though I am staying off-campus and completely online, your efforts should not be overlooked.

Thank you again!! ♥

Sincerely,
Dear UHS Staff,

My name is [Redacted], and I am a freshman here at UT Austin. I'm writing to you to thank you for your constant service and for all your dedication to COVID-19 relief efforts. Your hard work does not go unappreciated or unnoticed. Thank you for setting up and administering PCT, so that all students here on-campus have the ability to easily get tested and make sure they are keeping the UT community safe. And to all the nurses, PAs, and doctors, THANK YOU for working overtime to take care of the community. We don't know what we would do without you all. Thanks again, and have a wonderful day.

Best,
Dear UHS Staff,
I cannot put into words the gratitude I feel toward you guys and the effort you have put in to make the campus safer for us. It is truly incredible that you are able to conduct COVID testing so effectively on such a large scale. Your tireless work is the reason that so many of us are able to come to campus and have a college experience. I hope you guys are all taking care of yourselves as well because I know these times are trying for everyone. Thank you so much for everything you do to keep UT students and staff safe! We really appreciate it!

Thanks,
Dear University Health Staff,

Thank you for your hard work in keeping our university healthy and safe during these times. From COVID testing, to providing students information about their health, your humility and strength is so appreciated. Though I am away from campus this semester, I know our school would not be the same without you!

Sincerely, [Name]
To the UHS staff,

First off, I hope you are all well and taking time for yourself when needed. As a UT student, I wanted to take the time to thank you for all that you do, especially during these difficult times. Your hard work is extremely appreciated! Thank you for your great efforts to handle the pandemic.

I have not directly used any UHS service myself, but my peers have and are always satisfied. Thank you for taking care of our UT community. Please take care of yourselves and stay healthy!

Remember that all your hard work is truly cared for and appreciated.
To the UT UHS staff,

Thank you for all of your hard work and dedication during these troubling times. With UHS, students and faculty members have access to all the services available such as COVID testing. I can speak on the behalf of everyone who has utilized these services when I say that we all greatly appreciate each member of the staff. I wish anyone reading this will continue to be healthy and safe during this pandemic. Thank you once again.
Dear [Name],

I cannot thank y'all enough for everything you've done in response to COVID and how safe you've made [insert name] and so many others feel during such unsure times. The kindness with which you've treated me in times when many are very anxious is something I cannot thank y'all enough for. Keep up what y'all are doing and try to keep the faith even when things look dim!

Thanks again!
Dear UHS staff,

Thank you so much for all you do! My name is [Redacted] and I am currently a sophomore Public Health major. I understand times are tough and it is a strange time right now, but your work is greatly appreciated. My personal experience with the UHS staff has been great! I just wanted to let you all know that each experience I have had has been amazing. I have been going to UHS about once a week to do a PCT test. I appreciate everyone helping out with this greatly. Everyone I have encountered during PCT testing has been very friendly, helpful, and easy to talk to. I greatly appreciate having this as a resource because it protects the public health of the campus!

Thanks for all you do!
Dear UHS Staff,

Thank you so much for the sacrifices you all make on the daily to keep our UT community safe. It is because of y'all that I get to return to campus with peace of mind knowing that each student's health is of highest priority. I could never put into words how grateful UT is for y'all's selflessness. It is people like y'all that inspire me to continue pursuing my dream career as a nurse. I am thinking of y'all and praying for your safety on the daily. Thank you again. Sincerely,
Dear UHS Staff members,

Thank you so much for all your hard work during this difficult time! We are so grateful for the difference you make in the lives of the UT students & faculty. Your kindness, caring & dedication make everything better. We wouldn’t be able to get through a time like this without you. Thanks again for the time and work you have put into helping others during this insane time. You are SO appreciated.

- Sending love.
Dear ULTS staff,

Thank you SO MUCH for everything you do! You all work so hard each day, and I hope you know that we all genuinely appreciate your efforts!

Thank you for spending your time to help keep us, yourselves, and the community safe & healthy!

You guys are the BEST!
Hello!

My name is [Name], I’m a public health major in the class of 2024! I just want to thank all of you guys working on and behind the scenes doing all the things you have been for COVID-19 procedures and general health + safety! Even though I’m not currently in Austin, some of my friends are, and I can’t thank you enough for keeping the community, and by inclusion, them, safe! The work y’all do everyday is beyond extraordinary, and I aspire to become medical personnel like y’all.

Please also take care of yourselves! This year definitely hasn’t been the best or stress-free, so remember to always keep yourselves safe, healthy, and happy! Don’t overexert yourselves; take a break whenever you need it to keep yourself and your mind in a good place.

Once again, thank you all for everything you do!

Best wishes,
Dear University Health Services Staff,

Thank you so much for all you have done during these hard times, constantly helping individuals even when the world seems to be going crazy. I know all of your jobs are incredibly hard and that you still have families and individuals at home that you care for as well, and that’s exactly why I want to thank all of you. You’ve taken a huge chunk of your time to help test sick individuals and to care for them as well. I can’t imagine these past few months have been easy on you in any way. Staying at home and doing online school is hard enough and I can only imagine how hard your job is right now and how hard it has been since March. I am very thankful for your hard work during these trying times and you deserve as much free time as you want in my opinion. When things finally die down and the world seems semi-normal, you all should definitely take a nice long vacation. You all completely deserve it. Yet again, I am incredibly thankful for all the work you do both during the pandemic and even before. Please don’t give up, I’m here to cheer you on all day and every day! Thank you for being you and helping others!

From,
Dear University Health Services Staff,

I want to begin this letter expressing my respect and thanks for the work you all uphold. I cannot imagine the anxiety and stress COVID relief efforts must give you all. Yet, it is the dedication from each of you despite that that inspires me to follow in your footsteps. Hopefully, the work that you all do is fulfilling. I know it must be gratifying to see lives saved and families grateful.

Or, if not that, I hope you all find satisfaction in knowing your work is having a dramatic impact on the UT community and beyond.

Personally, COVID has had a negative impact on the mental health of myself and the people close to me. In many ways, I saw my family’s hardships become exacerbated as the world and our community grew distant from our self-isolation. Remembering the services of healthcare workers such as yourselves has given us hope of a brighter future.

For that, I want to share my thanks again and express my support. Every one of you has had meaningful impact, and I cannot wait until I am able to one day contribute my own like you all have.

Best Wishes
Dear Grove UHS staff,

Thank you for your service to the UT community throughout the pandemic. We recognize your persistence to provide needed care and toll your work has possibly taken on your life and the lives of your family, but here at UT everyone is so grateful for your consistent support. I remember when a few weeks ago I felt sick with a severely sore throat and body fatigue, one of your nurses answered my call to the Nurse Advice Line and helped me figure out what I should do. Having a real person on the other end of the line provides a great sense of community and security knowing there are people that care.

Thank you again for all you do!
Dear UHS staff,

I wanted to take the time to thank all of you for the work you’ve been doing. Especially in this period, you have all been so helpful in COVID testing and treatment, and it makes such a difference. I’m sure many people have thanked you for your COVID relief efforts, so I wanted to thank you for helping me and one of my best friends last year. My friend had a very severe case of mono, one of the worst cases her doctors had ever seen, and you were able to direct her to the care she needed. I called UHS a few months ago because I wanted to receive PREP medication to prevent HIV, but I had no way of paying for it and I couldn’t risk having my family see anything the family insurance covered. You directed me to kind clinic over the phone, and I was able to discreetly receive medication free of charge, so now I have one less thing to worry about. I’m so thankful for the work you do; keep up the good work!

Sincerely,
Dear UHS staff,

I wanted to write this letter as a sign of my appreciation, and that of my fellow UT Austin classmates and peers to everyone at UHS who is working tirelessly to ensure the health and safety of everyone at UT during these difficult times. I am currently a freshman in the college of natural sciences majoring in Biochemistry. I aspire to work in the medical field in the future as a health professional. Health professionals such as the staff at UHS who work hard everyday to protect our communities are who inspire me the most.

Once again, thank you so much for all that you do! You're all incredible and we're lucky to have you!

With warmest regards,

[Signature]
Dear UHS staff,

Thank you so much for putting in all this effort to keep the community safe. I’m sure you guys are so busy and have such high numbers of patients on a daily basis. Currently, I am contact tracing with Dell Medical School so I first handily see the immense amount of work you guys are putting in on the Frontlines.

Please know, every single one of you are highly appreciated!

Best,

[Signature]
Dear UHS Staff,

I'm and I'm a sophomore at UT Austin and I one day hope to become a pediatrician. As a pre-med student I just wanted to say how inspiring it is to see y'all working so hard in a pandemic. I know it can't be easy, and it must be frustrating to see people act irresponsibly despite your hard work, but I applaud your drive and perseverance. And I wanted you to know that I appreciate your hard work and try to act responsibly so that this can be over and so you healthcare workers can be safe and get back to normal as soon as possible. You guys are truly amazing people and your sacrifice will not go un-noticed or un-appreciated. I hope you stay safe and healthy (mentally and physically), and I just wanted you to know you inspire me and I appreciate all that you are doing.

With Love,
Dear UHS Staff,

First and foremost, thank you all for working through these difficult times to keep UT students, like myself, safe from COVID-19. Through your efforts, my first semester at UT has been smooth and free from illness. Because of your efforts, I have been able to successfully begin the next step of my educational journey. As the holidays draw near, I hope y'all can take a well-deserved break to spend time with your families. Once again, thank you. I wish you all the best!

Stay well,
Dear University Health Services Team,

I wanted to take a second to show my appreciation for all the work you guys have done toward the COVID-19 relief effort here at UT Austin. I personally want to thank the UHF team for providing me with care during the middle of October when I contracted COVID-19. Thank you, Mrs. Tara Cutler, for consulting me while I was ill, and to the UHF team for providing quick test results. The pandemic has made this scenario very hectic and stressful for many students, but it is comforting to know that we have a resource like UHF to help aid any health-related problems. I wish I could thank each one of your guys individually, but please remember your hard work is not over blocked!

I also want to give a tremendous thank you to our new Chief Medical Officer and Executive Director, Dr. Teresa Hines. I cannot imagine the amount of stress and hard work that is necessary to enter into this position at a time like this. But thank you for overseeing the health of all students and faculty across UT Austin. Even if your work is not often acknowledged by students, it is still very much appreciated.

Lastly, I would like to give a special thanks to Mrs. Sherry Bell for giving us the opportunity to contact the UHF staff. I very much appreciate your work as senior program coordinator and your time communicating with myself.

Thank you all so much again,
Dear UHS staff,

Thank you so much for everything you do. I want you to know that you are appreciated by the students of UT Austin! I’ve personally been tested at UT six times! I know you guys spend many hours working to ensure the health and safety of everyone at UT!

Thanks again,
have a joyful autumn 2020, best wishes

Dear UHS Staff,

Thank you for all of your support and hard work during this pandemic and turbulent times. Your work is not overlooked and in our organization (DEM) Delta Epsilon MU, we thank you for your hard work. We hope that everything goes well and we wish you the best and have a great holiday season!

Best,

The University of Texas at Austin
Thank you so much.

Thank you for taking care of all the students & staff on campus not just during the COVID-19 pandemic but any other time as well. Hope all of y’all stay safe yourselves as well! ❤️ I miss seeing all the doctors & nurses in person, I cannot wait for everything to go back to normal !!! I am so thankful for everything all of y’all have done for the UT community!
