

## **Research Areas for CNS Website**

Artificial Intelligence/Robotics  
Biodiversity/Ecology/Sustainability  
Biochemistry  
Biophysics and Structural Biology  
Climate Change  
Cosmology and Space  
Computer Security  
Computational Medicine  
Elementary Particles  
Energy  
Evolution  
Health Promotion/Disease Prevention  
Human Development and Families  
Inequality and Resilience  
Infectious Disease, Immunology and Microbiology  
Learning and Memory  
Materials Science  
Mathematics  
Molecular Biology and Genetics  
Nanoscience and Nanotechnology  
Neuroscience  
Nutrition and Obesity  
Oceans and Freshwater  
Programming Languages and Systems  
Quantum Information  
Relationships, Families and Youth  
Statistics, Big Data or Machine Learning  
STEM Education  
Substance Use Disorders  
Vaccines and Therapeutics
