Dear Superintendent \_\_\_\_\_,

I experienced the joy of working with your Assistant Superintendent's and Executive Directors for two days at UT Austin this week. I attached our research report, findings and our planning documents we developed to prepare for 2023-2024 school year:

1. Attached is the Final Principal Pipeline Research Report for your review.
  - a. Dr. DeMatthews gathered a team to conduct research on your district to support your district's planning and our partnership next steps
  - b. The report provides the findings and recommendations to advance our research and partnership next steps
  - c. An oral presentation of the report was provided to your senior leadership team
2. Attached is the PowerPoint and Handouts I customized and designed for our leadership development retreat aligned to your District Improvement Plan and Board of Trustee Goals.
  - a. Artifacts from our 2 day planning: District Planning Documents for 2023-2024 implementation
  - b. Resource Folder: Research, Literature Reviews, Data and Planning Templates

I look forward to visiting you in our scheduled meetings in August and September to review the research and plan our next steps. Wishing you the best this summer and hope you find some time to relax and get some rest. Thank you for your leadership!

Thank you,
