Getting started with ImageQuant TL (IQTL 8.1)

IQTL 8.1 is the same software that is on the Typhoon computers to view and quantify samples.

Download IQTL?

From a web browser use the Link:

https://utexas.box.com/s/a6uamt0dndk53591joft

Use your eid and password to access the “box” link.

Install IQTL

1. Unzip and run: IQTL_8_1_8100_29000592.zip
2. Follow prompts for IQTL only.

Running IQTL for the first time?

1. Choose the analysis method.
   a. Probably either 1D gel analysis or Analysis Toolbox

2. Set up the ImageQuant TL License:
   a. Choose “Floating E-License”
b. Enter License server: (146.6.133.15)

If IQTL does not come up and it keeps asking for the license:

Email: dsfcore@austin.utexas.edu
