

Enter Employee, Craft & Crew Information

What you need to know:

- a) Every person entering crafts and crews in FAMIS as outlined below:
 - i) Crew
 - (1) For Facilities Services and PMCS – will designate the division, branch, and/or section.
 - (2) For Utilities – designates the shop – example, Mechanical Distribution, Electrical Distribution, Power Plant, and Chilling Stations, etc.
 - (3) Housing and Food – designates the warehouse.
 - ii) Craft
 - (1) For Facilities Services (except Custodial Services) and PMCS – craft designates the trade or discipline such as electrician, plumber, architect, etc.
 - (2) For Custodial Services – craft designates work groups or people led by crew leaders that report to the same supervisor.
 - (3) Utilities and Housing and Food do not use craft.
- b) This SOP references the following acronyms:
 - i) **UT** - University of Texas at Austin
 - ii) **DTN** – Departmental Transaction Number
 - iii) **ETM** - DEFINE time keeping module
 - iv) **FS** – Facilities Services
 - v) **PMCS** – Project Management & Construction Services

Enter Employee, Craft & Crew Information

PROCEDURE

- a. Data Entry of Craft and Crew for Employees
 - i) When appointment document is processed in DEFINE, use one of the following commands:
 - (1) ANM - new hire to UT or transfer from another UT department
 - (2) ACM - internal promotion or internal transfer
 - ii) Enter the three digit crew code in DTN field on the departmental code screen of the appointment document.
 - iii) Enter the three digit craft code number **in Tag A field on the departmental code screen of the appointment document.** – may change to ET1 field based on current DEFINE and FAMIS automation. **(Note:** Craft and Crew information will be downloaded from DEFINE into FAMIS nightly for appointment documents that have been created. The craft and crew information is not permanently in FAMIS until the appointment is final approved in DEFINE.)

Enter Employee, Craft & Crew Information

- iv) Between creation and final approval of appointment and ETM upload, update the Labor Class field in FAMIS from “Employee” to “Temporary” status.

Employee Form – Employee Tab – Work Description Section

The screenshot shows the 'Employee Form' with the 'Employee Tab' selected. The 'Work Description' section is highlighted with a red border. It contains the following fields:

- Job Title
- Supervisor
- Crew
- Craft
- Resource Calendar
- Labor Class
- Shift
- Shift Starts
- Shift Ends
- Approval Limit
- Employee is a Buyer

To the right of the 'Work Description' section are two other sections:

- General Information:** Crib, Hired, Terminated, Mail Code, Locker #
- Payroll:** Charge Rate, Pay Rate, Timecard (set to Daily), Payroll Number, Record No., and a checked checkbox for 'Send Timecard to Payroll'.

- v) Once appointment document has reached final approval and the ETM has uploaded and updated, update the Labor Class field to “Employee”.

2. Entering Temporary Employees in FAMIS

Employee Form – Employee Tab – Header Section

The screenshot shows the 'Employee Form - Employee Tab - Header Section' in the FAMIS system. The form is titled 'Employees' and has a red box around the 'Employee' field and the 'Dates' button. The form is divided into three main sections: 'Work Description', 'General Information', and 'Payroll'. The 'Work Description' section includes fields for Job Title, Supervisor, Crew, Craft, Resource Calendar, Labor Class, Shift, Shift Starts, Shift Ends, and Approval Limit, along with a checkbox for 'Employee is a Buyer'. The 'General Information' section includes fields for Crib, Hired, Terminated, Mail Code, and Locker #. The 'Payroll' section includes fields for Charge Rate, Pay Rate, Timecard (set to Daily), Payroll Number, and Record No., along with a checkbox for 'Send Timecard to Payroll'.

- a. Open the Employee form.
- b. Click the “Enter Query” icon or press F11, and enter “T%” in the employee field. Click the “Execute Query” icon or press Ctrl+F11 and hit the Last Arrow icon to view the last record. The last employee number assigned will display in a format of T### and the new record will be the next in numerical sequence.
 - i) Click the Insert icon to display a blank form.
- c. In the header section complete the following:
 - i) **Employee** – (required) Enter the new record number determined in step 2.b.
 - ii) **Name** – (required) Enter the employee’s name in the format of “LastName, FirstName MiddleInitial”.

- h. In the Authorized Warehouse Access section complete the following:
 - i) Warehouse – Enter the employee’s authorized warehouse(s) by typing directly into the field or click the “Warehouse” button and select the warehouse. Use:
 - (1) 10 for FS & PMCS
 - (2) Utilities for Utilities staff
 - i. Click the Save Icon or press Ctrl+S to save.
 - j. Close form.

3. Process Employee Departmental Transfers Within FAMIS Instances

- a. When an employee from one department using FAMIS transfers to another department using the same instance of FAMIS, special steps have to be taken to continue to enter labor during the transfer.
- b. When the department receiving the employee has created the appointment document prior to the transfer, the current department needs to update the Labor Class field to “Temporary”. Add the original craft code back in. Verify that the job title and the labor charge rate are still correct.
- c. Once the employee has transferred and all the labor charges have been entered, change the labor class back to “Employee”. On the next nightly run, DEFINE will automatically update FAMIS.
