Python Library

**matplotlib**

*matplotlib* is a python package for plotting. It is motivated by MATLAB.

- Available on Fourierseq (ubuntu package: python-matplotlib)
- See Gallery for the example. If you click each plot, you can see a python code to generate that plot.

**numpy**

*numpy* is a python library for numerical computing.

- Available on Fourierseq (ubuntu package: python-numpy)
- [http://docs.scipy.org/doc/](http://docs.scipy.org/doc/) (Documentation)
