Lynda

About

Lynda is an online learning website with video tutorials and courses on a large variety of topics including Microsoft Office, Visual Studio, Apple, Adobe, business skills, and much more. You can access it anytime and anywhere that has an internet connection. It keeps track of where you are, so if you leave in the middle of a course, it can tell you where you were when you return. It is available to faculty, staff, and students at The University of Texas at Austin.
