Chat client configuration
XMPP, Jabber, Messages, iChat, Pidgin, Adium

<table>
<thead>
<tr>
<th>For your information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Any CNS chat account can send messages to any other CNS chat account, whether they are in your Buddies list or not, by opening a new chat and using the following format in the 'TO' field: <a href="mailto:RecipientEID@chat.cns.utexas.edu">RecipientEID@chat.cns.utexas.edu</a></td>
</tr>
</tbody>
</table>

Required Steps:
1. Submit a ticket to the CNS Helpdesk (cns.utexas.edu/help) with your EID and the group you are associated with requesting access to the chat server, and specify which group(s) you want to see in your buddy list.
2. You will receive confirmation that the account has been created.
3. Follow the appropriate configuration instructions for your preferred chat client (see below)

Messages/iChat
1. Launch Messages. If prompted for an Apple ID, skip it.
2. Select "Other" account.
3. Select "Jabber" from the "Account Type" drop menu.
4. "Account Name" will be yourEID@chat.cns.utexas.edu
5. "Password" is your EID password
6. "Server" is chat.cns.utexas.edu

Pidgin
1. Launch Pidgin
2. Click "Add..."
3. "Protocol" is XMPP
4. "Username" is yourEID
5. "Domain" is chat.cns.utexas.edu
6. "Password" is your EID password
7. "Local Alias" is your preferred nickname (displayed to others).
8. Accept the certificate.

Adium
1. Launch Adium
2. File > Add Account > XMPP (Jabber)
3. Jabber ID: yourEID@chat.cns.utexas.edu
4. "Password" is your EID password
