Submission Instructions

1. Review the “EDP Merit Review Criteria” at the top of this page

2. Complete your [FAR]

- For 2018 Review: AY 2017-18 up to 8/31/2018
- [FAR How-To]
  - Note: FAR is a UT-level system managed by the Provost Office
  - First, certify your works in the Publications Database.
    - All tenured and tenure-track faculty are required by the Provost to annually certify their scholarly works in the UT-central Publications Database. The database allows faculty to assign proxy users who can add/edit publication information prior to the faculty member personally certifying the publication list. You can add your publications one at a time, or through a batch upload process.
  - Make sure a date is listed in the FAR's Scholarly & Creative Works, Conference Presentations, and Service & Activities.
sections.

- Ensure "Year" / "Date" fields are filled in for all in the 3-year period being reviewed for
- Check for "Double-Dipping" and correct as-needed:

**IMPORTANT:** DO NOT "double-dip"!

The FAR system doesn't understand that there can be calendar vs. academic year overlap. Some publications, presentations, or activities may therefore be duplicated across years. If this is the case, you **MUST** manually remove it from your newest FAR so it will not be counted twice!

**To Find & Correct Double-Dips:**

View previous years’ FARs by clicking "View" by the year you wish to see (on the FAR homepage):

In your new FAR, under the corresponding section, click "Make Adjustments"
