This is two sets of WGA amps of samples...

Agilent kit: Job JA12071, samples: A, AW (just A vs AW (whole blood gDNA)) - seq data is on: SA12015

Illumina kit is job JA11251: JW 1, 2, 3 vs 4, 5, 6 (these are blood spots), and YZ's set bw vs, b and cw vs c (whole blood gDNA) - seq data is on: SA12013

Plus replication of 509/527 (these are blood spots).

Stories: Agilent kit vs Illumina kit, and replication.

SNPs, mini-insertions, mini-deletions (up to 10); separate by distribution of quality score.
