April Social Media Posters

"I’LL LOOK UP THEIR INFORMATION!"

The Eyes of Texas aren’t the only ones watching...

"OH! I’LL JUST PUT MY NOTEPAD IN MY POCKET"

You wouldn’t leave your passport and sensitive data, such as envelope passphrases, in your pocket...

"IT’S OKAY, I HAD MY SELFIE"

Just because you have a password doesn’t mean your data is safe. Encrypt your home directory and removable media so that only you have access.

“I CAN’T GET HAVING SURFING THE INTERNET RIGHT.”

Browsers and add-ons like Firefox, like any other software, and store information in the clear. Browser Everywhere and AdBlock take care of that.

“NOBODY CAN SEE WHAT I’M DOING ON THE INTERNET.”

Your web browsing is being tracked. Use browsers like Tor Browser or Privacy Badger to help keep your data private.

“UGH I DON’T WANT TO SEE MY SELFIES FROM LAST MARCH.”

Your social media friends no longer have access to those selfies. Stay private in media outlets and the real world.
