Required Courses

On entry to the program, students will receive an individualized Program of Work that lists all the required courses for their specific program and entry year. You will use and refer to this Program of Work during all program advising.

More detailed explanations of the Program Requirements are listed on the EDP Website, but please note - requirements are often fluid, so what is listed on the websites below may not exactly match your Program of Work. When in doubt, ALWAYS defer to your Program of Work for course requirements. Your faculty advisor, Area Chair, and Graduate Advisor can also provide clarification when needed. The online detailed explanation should only be used as a helpful reference if more information is needed on a specific requirement.

Program Requirement Details

Counselor Education - Master's
Counseling Psychology - Doctoral
HDCLS - Master's
HDCLS - Doctoral
Quantitative Methods - Master's
Quantitative Methods - Doctoral
School Psychology - Master's
School Psychology - Doctoral

⚠️ The program requirement details listed online may have changed since a student's entry year - students must always refer to their individual Program of Work for advising and course planning.
