Create a UT EID

You can create a UT EID here and use that to submit samples using our wiki by clicking here. You don't need to be affiliated to UT to create an EID.

Once you have a UT EID or account you can do any of the following via this Wiki interface:

**Outside Users: A purchase order will be required before we begin any work**

**Sample input guidelines**

We have posted these guidelines for marking your tubes and what sample amount and concentration are needed for a wide variety of sample types.

**Shipping**

Shipping information is available here
