Using the DocuSign Power Forms

DocuSign allows the creation of Power Forms, which will guide you through the procedures of filling out and signing the document in a template.

There are currently 5 Power Forms for different occasions.

Business Processing Form
Business Processing Form Student
OOEF & BPF Pre Approved
OOEF & BPF Post Approved
OOEF & BPF Post Approved Student

Starting the form

Upon clicking the link you will be taken to the power form start page for that particular form.

Business Processing Form, OOEF & BPF Pre Approved, OOEF & BPF Post Approved

The UT Contact and Director emails are in the EID email format (EID@eid.utexas.edu).

Business Processing Form Student, OOEF & BPF Post Approved Student

Students are to use their Utexas mail account. The UT Purchaser and Director emails are in the EID email format (EID@eid.utexas.edu).
All forms will be asked for an Access Code to validate. Only the Student or UT Contact will have to input this code.

Please enter the access code to view the document

The sender has requested you enter a secret access code prior to reviewing the document. You should have received an access code in a separate communication. Please enter the code and validate it in order to proceed to viewing the document.

Access Code

Show Text

I NEVER RECEIVED AN ACCESS CODE

If you use Firefox and are asked to access your location, choose "Don't Allow". Other browsers may also ask something similar. Choose 'No' or a similar option. You should also check to "Remember this decision" or it will prompt you each time.

If at any time you see these screens to "Log in to DocuSign" or to your account, for Students it will be the Utexas email account and for staff it will be the EID email format (EID@eid.utexas.edu). If you see the normal EID login page, please log in with your EID credentials.
