Cooperating Teacher Mentor Training

Cooperating teachers and field supervisors of student teachers are required by State law to complete mentor training within the first three weeks of the student teachers' placements.

In order to receive credit towards this requirement, please visit our Cooperating Teacher Training site.

Instructions: When you enter the site, select "Begin" which opens up section 1 of 15. The left side panel serves as the navigator and shows your completion status. Once you finish all sections of the training (which should take about 90 minutes), your reflective responses will be recorded to show your successful completion of the training.

If you have any questions regarding the Mentor Training requirement, please email Field Experiences or call (512) 471-1511.
