Panasonic Plasma Monitor - How to Turn On Screensaver to fix Display Burn In

Turn on the Whitescreen Screensaver to help with Burn in

Panasonic Remote click on – “SET UP” button

Use these buttons to navigate the menus.

Go to >Set Up
> Screensaver

Click the middle navigational button on the remote to select.
On the >Screensaver menu go to >Start and >Function>choose the type of Screensaver>Scrolling Bar and >Mode turn on the screensaver mode (Mode>ON)

Can also choose a "White Screen" screensaver – This one is preferred to help fix burn in.

Press N or R to escape out of the screensaver mode
