AVID – Relinking Offline Master Clips

You will notice that on Tape 1.01 the audio is offline. Note is states in this figure that A1-2 is Offline.

To fix this problem go to >Clip>Relink.
Change the following settings:

Media On Drive – Choose the EditShare or the media volume where the files are stored

Uncheck – Relink only to media from the current project

Relink by:

Start timecode and source name

Uncheck "Match case when comparing source names"

Choose to Relink to "Any Video Format" on Video Parameters

Click "OK"

The media is relinked and the audio is no longer offline.
