Classroom Lectern - How to Change and Repair the Broken Desk Casters

Items you will need to do this project:
Remove all items off the desk.
Remove keyboard and mouse off the desk tray.
Flip the desk on the short side.
Flip onto the side that the Doc Cam is attached. Don't use the other side.

Make sure you get a couple of people to help.
Use a socket wrench to get off the 4 bolts once each set of casters.

There is also one Allen hex head screw.
Pull out the old caster arm and replace with the new repaired caster arm.
After they are replaced and bolts and screws tightened.

Replace the upper and Lower casters

Replace the upper and Lower casters
