How to duplicate a DVD with DVD Studio Pro

1. Load dvd to be copied into the DVD drive.
2. Make a new folder on the computer's storage drive.
3. Copy the existing VIDEO_TS and AUDIO_TS off of the DVD into the newly created folder.
4. Launch DVD Studio Pro.
5. Click on the “Format” icon.
6. When the following menu appears, click OK.
7. Name the DVD Disc.
8. Click “Choose” to choose the “Current Source” for the DVD.
• Navigate to the location that the DVD VIDEO_TS AND AUDIO_TS folders are stored and click “Choose”

• Click OK when the “No Layout info. . .” screen pops up
- Then click “Burn” to start the DVD burning process

- Put a blank DVD into the burner to burn the DVD material
