**CMB - Grad Edit Suites how to listen to computer audio through speakers**

<table>
<thead>
<tr>
<th>Go to Apple&gt;System Prefs</th>
<th><img src="image1.jpg" alt="System Preferences" /></th>
</tr>
</thead>
</table>

Make sure the Green cable is plugged into the "Line Output" cable may not be green just make sure the cable feeding the Aux input on the PreSonus.

![Aux Input](image2.jpg)
Go to the > System Prefs>Sound>Output tab
Choose the Line Out

Select the Aux Input and
Turn up the volume.
This Aux Input will also boost audio
