FAMDEM:

FAMDEM: Family Analysts Meeting to Discuss Emerging Manuscripts

FAMDEM, originated in Fall 2008, is a friendly, informal group for students, faculty, and postdocs to present early results from (and get feedback on) their research on Family Demography. Families are central to many social processes at the macro and micro levels. Marriage and childcare continue to be highly gendered, with implications for stratification in the workplace. Changes in work and social policy over the past century have had profound implications for social expectations about marriage, fertility, and intergenerational relationships. Families continue to link the opportunities of children to those of their parents and thus families are still central to (re)production of the next generation. These are some of the topics of research FAMDEM members discuss at meetings.

We meet from 1-2 Wednesdays in CLA 2.706 (PRC Conference room)

FAMDEM Participants: If you want to present send an email to kelly.raley@austin.utexas.edu

Upcoming presentations.

March 25. Kathleen Broussard "Religion and Health Seeking Behaviors of Women in Rural Malawi" (informal)
April 8.
April 29
