

ProTools - Creating Tone Media

By Susanne Kraft

<p>Highlight a portion of the audio track that you would like to insert Tone</p>	
<p>Select the amount of the track to insert tone as shown here.</p>	
<p>Then go to>AudioSuite>Other>Signal Generator</p>	
<p>Make sure that "create continuous file" is selected and then click on Process to create the tone data.</p>
