To submit a new project or get detailed pricing information, please use the online job submission portals.

1. Sign up for an account
   - Anyone at the University of Texas at Austin with a "utexas.edu" or a "austin.utexas.edu" email address will need to email the lab to request and account
   - Please email info@utgsaf.org to start the process
   - All others can use the self registration portal by following this link
     - This includes outside academic labs, commercial labs and University of Texas affiliates not at Austin

2. Once you have an account use the GSAF Requester Portal
   - Important notes on sample submissions
     - See this web page for sample input guidelines.
     - Metagenomics, GBS and TagSeq
       - DNA/RNA concentrations should be normalized before submission

3. Job Info TOOL
   - Use this link to only check job details without logging in
   - You will not be able to access files from this link
   - This resource is great for researchers who just need to check the parameters of previous projects
