SharePoint 2010

Computer Services is upgrading the SharePoint servers to SharePoint 2010. There have been some changes to the interface. See the links below to learn more.

SharePoint 2010 Tutorials

Here is a link to a video tutorial (and direct links to each segment) for those already familiar with SharePoint 2007 and transitioning to 2010.

- Make the switch to the SharePoint 2010 user interface (main overview page)
  - Introduction (time: 8:37)
  - The ribbon (time: 12:37)
  - Working with libraries (time: 8:27)
  - View files in your browser (time: 4:14)
  - Working with lists (time: 7:14)
  - Creating and editing a new page (time: 10:02)
  - Creating a subsite (time: 6:50)

- Quick reference card (not a video but a quick review of how to do common tasks)
- Test yourself (just five questions to quiz yourself on what you learned)
