About

The Technology Lab has a selection of portable electronics available for checkout: laptops, projectors, universal slideshow remotes, video cameras, light meters, and much more. The full list is available in Usher, where you can also request an equipment reservation in advance of checkout at the service desk. Please read the full equipment checkout policy here before making a reservation. The loan period is 24 hours unless otherwise arranged with TRIG. Failure to check-in items on time will result in loss of lab privileges or late fines. Only one item per type per loan period (example: no more than one workstation per reservation per loan period).

To get started, log into Usher using your EID credentials, click the SOA icon (labeled ‘Equipment Reservations’), and you will be directed to the SOA Equipment Reservations landing page. The landing page describes our hours and policies as well as shows messages about service changes, including special hours. If you run into issues logging into Usher or receive any errors, please reach out to the Tech Desk at soatechdesk@utexas.edu.
Camcorder
- DSLRs (6 hour limit)
- CNC Bits and Blades (6 hour limit)
- Gigapan 360 Panorama
- Mini-PA system
- Projectors (all SOA classrooms are equipped with a projector or TV)
