Handy External Mailing Lists	
COG - Crestron Owners Group The Crestron Owners Group was established to fill this need and includes Crestron's sponsorship and participation as a corporate member. The goal of COG is to provide a safe and secure environment to facilitate communication among partner end user organizations for the purpose of information sharing and technology development. COG is an independent end user organization open to large, multi-system institutions within the United States and Canada. COG is completely managed and operated by member institutions, independent of Crestron. COG members have the opportunity to share experiences, design ideas, and best practices; visit other Crestron installations; provide input for the development of new Crestron products and technologies; and gain publicity for their own projects and organizations. COG members will also have access to Crestron specific materials such as a user driven, resource-rich website and regional & national meetings. Membership is open exclusively to: A+ Partners GSS Partners Hospitality & Gaming Partners Enterprise Partners To ensure communication among multi-system institutional end users, COG is not granting membership to organizations within the distribution channel or individuals who provide design, installation, or programming services outside of their own organization.	http://www.linkedin.com/groups?home=&gid=3734672
