

# How to Access Windows Software and Updates Through Software Center

The Software Center allows you to download or update available software a without having to submit a ticket to CNS IT.

Please let us know if you would like to request additional software be added to the software center.

1. Click the Windows button at the bottom left:
2. Type "Software Center" in the search box, the select "Software Center" from the menu as seen in the picture below:

3. This will open the Software Center as seen below. Select a package to install, check for updates on the left menu, or monitor installation status:
