Pro Tools - Relinking Audio Files in ProTools

By Susanne Kraft susanne.kraft@austin.utexas.edu

To get ProTools to relink to lost audio files when the session opens it will ask you to locate missing files.

Select Manually Find and Relink and check the box to Regenerate Missing Fades. Click OK

When the Relink window opens choose the files to relink from the Select Files to Relink area click on one of the files and then click "apple A" to select all of
