

Converting .wma files to .wav files with Soundtrack Pro

1. Open Soundtrack Pro
2. Drag and drop the .wma file into Track 1 in the 'Tracks' window

3. Right click the .wma audio file in Track 1
4. Go to 'Open in Editor'

5. File --> Save As
6. In dropdown box:
 - Save As - Rename file if desired
 - Where - Specify the location that you would like to put the file
 - File Type - Choose 'Wave File'
 - Save File
