New Computer Setup - PC

Steps to set up a new PC

Step 1:

Install OS - if necessary

Dell's will come with some preinstalled software that should be removed. It isn't necessary to reinstall the OS.

Step 2:

System Preferences

- Energy Saver - 30 minutes
- Hostname/Computer name

Software install

- Adobe Acrobat Reader
- Office
- Teams
- Firefox
- Chrome
- Box Drive
- Box Tools
- CrashPlan
- CiscoAmp
- Java
- VLC
- VPN
- Printer Drivers
- Nessus Agent

Step 3:

BitLocker Encryption

Step 4:

OS Updates - will include Office

Step 5:

Bind to Domain
