

RODECaster Pro - How to Record Audio from a Cell Phone Or Computer Zoom, Microsoft Teams or Facetime via Bluetooth

Fo llo w Fir st St ep s to se tu p up th e R O D E C a s t er	RODECaster Pro - First Steps
Fo llo w R O D E Br oa dc as ter Mi c to m ak e su re th e mi c is re ad y to use	RODECaster Pro - RODE Broadcaster Mic

Turn up the sliders on the board and talk into the mic(s) you want to use

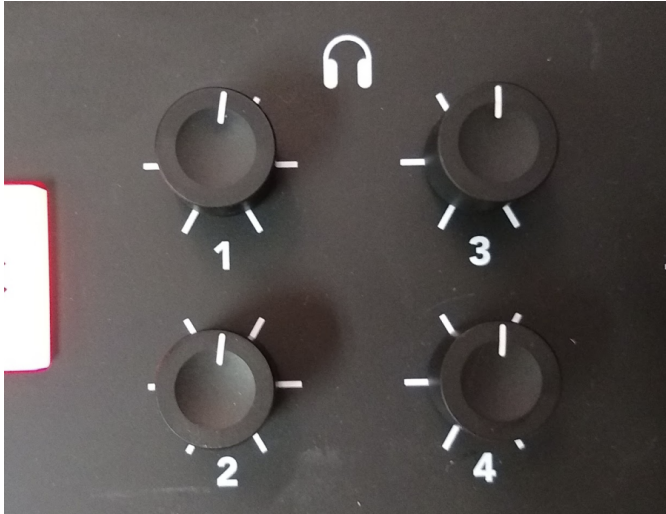

Have each guest and interviewer speak directly into the front of the mic, and not from the sides

Set the levels by watching the meters as you speak. You'll be at a good level to record when the color of the level bars peak at green going into yellow (see picture)

Keypad

RØDECast P..

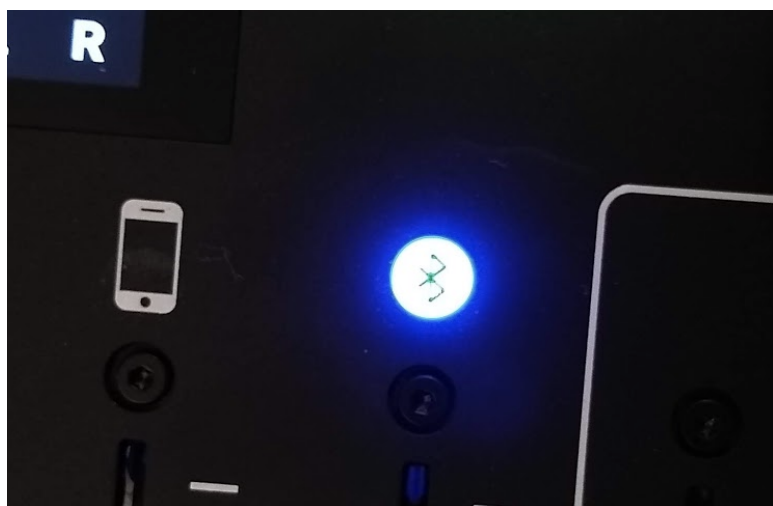

Add call

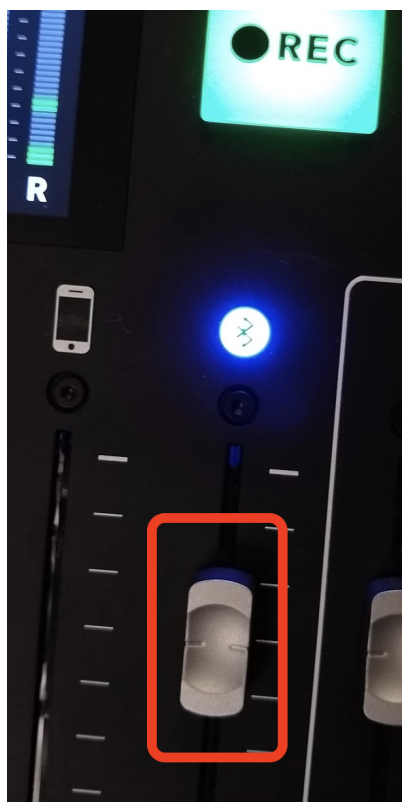

Hold

The Blue tooth light on the RODE Cast will also stop blinking, and will become bright blue when the phone is connected.

Turn up the slider for the Bluetooth input so we'll hear audio from the phone

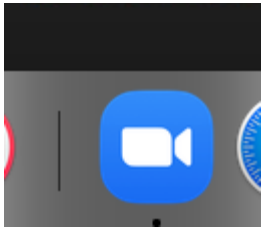

Now either call your guest or have them call you on your connected phone

The interviewee that you are calling will be heard in the headphones now and you will see levels on the board on Blue Toth Input

Double check the input levels from the Blue Toth input and adjust, if necessary
