

Bubblesheet errors

There are three common sources of bubblesheet errors. They include mis-bubbling of:

- 1) eids
- 2) versions
- 3) bubble response with no question

Error	↕	EID	↕	Version	↕	Question	↕	Answer	First name	↕	Last name	↕	Fix
Not registered user				0		1		3			MALA		
No assignment for version		x4x		0		1		4			TELLO		
Bad question number		:-)		488		67		2			BE		

For each of the first two (eids, versions), click the fix pencil on the right hand side. This will populate a pull down list in the appropriate column (eid, version) to select the correct pairing. More info on versions that have been used and not below.

Error	EID	Version	Question	Answer	First name	Last name	Fix	Time
Not registered user	o*368	260	1	1		MENDOZA		9/27/19 11:08 AM
	o*368	260				MENDOZA		
	om5368							
Not registered user	ph*64	84	1	5		DAVE		9/27/19 11:08 AM

Bad Question number means a student bubbled in an item that does not have a corresponding question. Nothing to do there outside of warn students to be sure to align their bubblesheet responses with the exam numbering.

Unused Versions

To be able to see unused bubblesheet versions after uploading a scanned bubblesheet file:

Bubblesheet errors that say 'NO_ASSIGNMENT_FOR_VERSION' have a blue edit pencil over to the right (this is not new). Clicking on it brings up a drop down that has sorted unbound eids (versions that have not been used) and below them, bound eids (versions that are tied to a student already).

	NO_ASSIGNMENT_FOR_VERSION	idk007	750	1	5	Know		9/19/19
--	---------------------------	--------	-----	---	---	------	--	---------

	idk007	750		5				
		<input type="text" value="9"/>						

	NO_ASSIGNMENT_FOR_VERSION	idk007	750	1	5	Know	
--	---------------------------	--------	-----	---	---	------	--

Unbound eids are versions that have not been claimed. They are unused.

unbound eid

- ✓ 9
- 13
- 45
- 49
- 60
- 71
- 163
- 200
- 214
- 226
- 237
- 270
- 290
- 316

Bound eids are versions that are tied to a student already.

bound eid

- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 10
- 11
- 12
- 14
- 15
- 16

Notice that clicking the pencil editor button for other bubblesheet errors (Not registered user, BAD_QUESTION_NUMBER) will still only show what's relevant for those (usually eid drop down)

Also, if useful, unchecking the 'Show errors only' box (so showing all the items scanned), and then using the little white arrows next to version to sort now sorts numerically.
