

LA interface changes (SP21)

Forthcoming in spring 2021, OnRamps Learning Assistants (LAs) will see a different layout of Quest. This guide primes affected parties for what's forthcoming.

Home page will just look a little more snazzy:

(current)

Institution		Semester	
OnRamps		Fall 2020	

Course	Unique	Title	Instructor	Meets	Enrolled
Randel T. PHY1	RandelTPHY1	Mechanics, Heat, and Sound - Randel T	Dowd		21

The vast majority of the the functions are the same, even if the color scheme is slightly different. The new interface for spring does offer two enhancements, though--

Late Submits may be used per assignment, or student

And a new feature, [Exam Dashboard](#), will also help keep track of the details of testing.

Another new addition: **Group Start Times**, where you can set different exam start times for the groups of your class (notice the _1, _2, original and default groups below) on the edit all page:

 ApplewhiteCPHY1_1 Group (8) December 15, 2020 11:00 AM CST
 ApplewhiteCPHY1_2 Group (6) December 15, 2020 11:00 AM CST

Dropdown answer choices

When OnRamps Administrators turn on the blind toggle for a test (via edit settings), students will receive a drop down of choices rather than a block of choices.

The standard way of presenting answers to students lists them all on one page:

1. 1

2. 2

3. 3

4. 4

5. 5

6. 6

With dropdown answer choices enabled the answer choices will be nested in a pull down menu:
