

Contact Us

The [Fishes of Texas Project](#) is based at the [Texas Natural History Collection](#) (TNHC), which is a division of the University of Texas' [Department of Integrative Biology](#).

Our offices are at the University of Texas, Pickle Research Campus in North Austin. Our mailing address and driving directions to our building are available [here](#).

The project's main phone number is (512) 471-8845 and we can also be reached by email.

If you have a comment or question specific to a particular database record or about our documentation, we suggest that you simply post it in that record's or file's comment section.

Current project staff ([photos here](#)) are:

Dean A. Hendrickson (Principal Investigator, overall project supervision; Curator of Ichthyology at TNHC)

Adam E. Cohen (TNHC Fish Collection Manager; FoTX data management and general project coordinator, georeferencing, specimen identifications, fieldwork)

Colton Avila (Programming, GIS, and Data Visualization)

F. Douglas Martin (specimen identifications, fieldwork, character matrices, literature-based occurrence database)

Melissa Casarez (TNHC Asst. Fish Collection Manager; georeferencing, cataloging, specimen processing / photography / identifications, fieldwork)

Gary P. Garrett (management perspective / government liaison, expert opinion, data acquisition, specimen identifications, fieldwork)

Tomislav Urban (Programming)
